Lavis wen his spot on the Canadian 1980,— sorting Canadian 1980,— pound weight division records, in a brilliant all-class duel with the sitin-ste champion Cosford White of Montreal at the Canadian we I ghilfting championships held at

In the White-levis duet, the former set a Ca20MN LEWIS and the former set a Ca20MN LEWIS pound in the pressure product of the pressure product of the pressure product of the three lifts with a lift of 26t, here quarter product and left.

White won the event with a total poundage of 955 pounds his third Canadian Open record in the afternoon. Lewis 1 of 945 pounds was good enough for a native record.

Evidence of the gradual climb to the op by Levis is seen in the fact that his total of 945 pounds exceeded that of his Pan-American Games mark of 924 pounds. This in turn was better than his former Canadian class record of 910 pounds.

The three Canadian members who will compete in the world championships are: Lewis, Pierre St, Jean of Montreal, 165% champion and Allen Salter also of Montreal, who wen he 123% pound title.

Maurice Allen, chairman of the Canadian Weightlifting rision of the Amateur Athletic Union of Canada, has of-ally announced the three lifters to be sent o Stockholm. an himself will coach the team with Philip St. Cyr of nireal, alternate coach.

The bretherbood of man is not exactly dead in this sometimes weird "federalen-of the world." Your family's silent pariner

Lying there on the doorstep, it can't speak. Or Move. Or Hear. But open it in your hands and it becomes a living, powerful partner in daily living. In the decisions you make, the opinions you form.

It takes you to the highest chambers of government. It takes you to the bloodlest streets of warring countries. It takes you to the heart of history in the making. In short, it tells you what in the world is happening and why.

But people depend on it for needs beyond the need to know. It's where families turn when something's to be bought or sold. It's where hints on health, cooking, religion, amusements, dressmaking, etiquette, marriage are found.

It's where charities first turn for help, and a place where a letter to the éditor is published. It's where campaigns are fought and lost dogs are found. It's where criminals are exposed and newlyweds applauded. Where birth and death meet on the same page.

> It's your newspaper, silent partner of the family, yet one that says so much, does so much for so many people - every day without fail.

Most of the world lives in darkness

Hard to believe, but true. Yet more than 70% of the countries of the world impose complete or partial censorship on their newspapers.

In these countries, Freedom of the Press is lostand with it, people have lost their voice in government. Protest against such curbs is quickly muzzled. Fortunately, in Canada, Freedom of the Press is unchallenged. It is a Canadian birthright that must be guarded.

Few Canadians realize that our press has no special privileges. The rights of the press are the same as each person's rights. The individual and the press possess identical freedoms and identical responsibilities under law.

Our newspapers require no permission to operate. They have no obligation to any governmental body. They have free access to all the news. They are responsible only to you, their readers.

History records that when free people are deprived of their easy access to news they lose their say in government. Consider this the next time you pick up your daily newspaper. Truth and freedom are necessities you can't afford to lose. Guard them!

Can We Be Bicultural?

Privy Council President Maurice Lamontange has told the House of Commons that he hopes a start can be made this fall towards reforming the Canadian Constitution, with the objective being "perfect equality between the two official languages."

Major reforms, however, would await the report of the royal commission on biculturalism. Is there not a danger of the country confusing bilingualism and biculturalism?

Bilingualism is relatively easy to achieve there is no doubt about it being desirable. Biculturalism may not only be infeasible but also impossible. Moreover, even if possible,

it may not be desirable. Bilingualism is a reversible coat, which can wear to suit the weather. Any tongue can t

we can wear to suit the weather. Any tongue can speak two languages. To be truly licultural, a person would have to be able to turn his skin. Some few remark-able people have achieved this feat, being equally at home in two or even more cultures. King Eddie Feigner and his Court will be here to-night, sad, it says here, people who have already seen him and his group perform are his best promotion gents. "If you get a chance to see him, don't miss hi," they

Then they talk about his strikeouts, whiffing batters second base, throwing blindfolded or between his legs picking off runners by throwing behind his back.

The King and His Court will be at the Fair Grounds tring with a pre-game show at 7.45, meeting the Bello le District All-Stars at 8.15, and winding up their per reasons with a post-game exhibition.

It is an interesting story how such a group got started-par was always a topfilph softball pitcher in his home on Walls-Walls, Washington, and excelled during a ned World War hitch with the United States Marines. K home he was soon blowing the ball past local talent after mowing down team after team, he was taunted fans as being a bot shot.

Never being one to duck a challenge he told his "taunt-ers", "If it wasn't necessary to have a man to bat in the event the bases got loaded, I would play only with my

One thing led to another and hefere he realized what was happening he had challenged his termenters is a game in which he would play with only a shart-stop, catcher and first baseman. He took his three players be Washington State Prison to try out the dis-and thus the Ming and his Court were practically been and thus the Ming and his Court were practically been

The game was supposed to be a secret but 400 ple tarmed up. Felipper insuched his crew anisolarly for of the 211 batters he faced in the seren man centest, he faunced 13, one relifed out to abortion and the other prounded to first. To make the pergame source dramatic, the Court inities serven runs each aft the propriate processing for a homor.

Scor the amening squad had won 11 games and during rest of the year, 1896, and in 1897 and 1848 foured hobbering states, blem - 26lf the road' for good. The has seen few changes in its 12 years but for Feigner, today he end his players make more money than many or lesquers. "And we only have to run 60 feet to hase."

Among some of the unusual accomplishments of this numing pitcher are those: Feigner once pitched a Schmings punchtilling out? I bearings which is just meth above its lifetime average of allfalty more than it meth above in lifetime average of allfalty more than it seems to those, in a reversaling affelt, the famous all II batters to face his getting the first six or II pitches one pitching a complete sever-inality game bilasticided in whilfed 18, without three and al-lowed only one his

During his pitching years he has developed something of a philosophy and gives this advice to other huriers. "Do not worsy about the heater you have just pitched to, nor the one you have to face next. Only concentrate on the one standing in the batter's box. Win thankfully, Lost pleasantly.

Be that as it may. The King's reputation, I'm told, does not "phase" the All-Stars. Coaches Harold Reid and Charlie Drake, with Manager Bill Shaw in the background have Pat Maracle and Bob Bulterfield ready to throw at the fearmone forurome. The chelce will likely be Maracle—but that is mere guesroric on my

DEAR UPSET — How can a child care agency be expected to risk a sick mother? Remember, the worker is protecting your future soul if time heaps heavy, fill it with a health improvement program. Your bounce, your healthy joy in living, will be needed to surmount trials of a demanding infant a year from now.

DEAR DORIS - Will you please print the following in your DEAR DORIS — Will you please print the following in your column and settle a dispute: How should a widow sign her name: Mrs. Mary Jones or Mrs. John Jones? Some say she should sign Mary Jones on her business letters and Mrs. John Jones on personal letters.—

DEAR CURIOUS — "Some" are right. It's Mary Jones on business documents or business letters; Mrs. John Jones on personal calling cards or formal personal letters. But if the letter is to first-name friends, It's Mary Jones or, more likely, just Mary. (Are you backward about coming forward? Doris can help you solve your particular human problem.) Two Brands of Socialism

Radicals are notorious for their factionalism.
Whenever two or three radicals are gathered together, there will be two or three differents points of view. Enlarge the assemblage and two or of view. Enlarge the assemblage more distinct parties will emerge.

Canadian radicals are no different from those of other lands. If socialists here have ap-peared to present a solid front, under the aegis of the CCF and now of the New Democrats, it has been chiefly because the number of left-wingers has been relatively small.

There have been some small spliner groups, under various labels. It is ironical, though, that Quebec, a province in which in the past socialist have been a rarily, should be the first to spawn two socialist groups with pretensions to mass appeal.

Yet, given the prevailing political and in-tellectual climate in La Belle Province, the de-velopment assumes an appearance of inevit-

The wonder is, though, that it should still be operative after all these years, with the familiath threat virtually eliminated and the communist threat more powerful than ever before.

Two View Points

The two articles appeared in The Ontario at Intelligencer on Wednesday.
On Page If there was a report of Fresident John F. Kennedy's address in West Berlin.
"Like the division of Garneny, the division of Europe is against the tide of history," he

Probably it is. Why?

Why?

"The cause of human rights and dignity, some two centuries after its birth in Europe and the United States, is still moving men and nations with ever-increasing momentum."

That would appear to be the President's

explanation.

Solution the editorial page there appeared a column by Sydney Harris, written several weeks before it was published.

There are only two things which will bring people close together—one of them is positive and the other negative, worth Harris. "The positive thing is love, the negative thing is fear. And since, we are not good enough to love or here." and soe order negative, wrote harris. "The positive thing is fore, the negative thing is fear. And since we are not good enough to love one another, we will be brought together, if ever, only by fear—by the very real fear which exists today, as never before, that destruction is indivisible and the research of the search of

Coay, as hever before, that destruction is individlike, and that we are all sitting in the same

Some youngsters want to be railroad engineers, others captains and fire chiefs; yet others doctors, lawyers chants and waht not, but not twenty-one-year-old Larry

When he was twelve years of age Larry made up his mind he would be a harness heree trainer, driver and owner. Four years later he owned and was driving his first horse "Blackleck's Pride."

A big milestane in his harmons career came the other day when he was put in charge of the Alfred De-tense stable of five horses traking and racing at Green-wood, Toronto. Larry left yesterday for his new posi-tion. Mr. Defense Rives in Trenton.

When he was a scant dozen years of age, Larry used to go to the Fair Grounds track with his grandfather, the ate Frank Orr. His mother is Mrs. Evalyn Zebedos, quinte Driving Club racing secretary and a former soft sell star of city teams.

The youngster liked the horry smell of the shed-row. The thud of hoofs on turf appealed to him. He had a natural love for horres, and as developed later a "antural way" with them.

He became a consistent visitor at the track with his inditather. He paid attention to drivers, horses, racing d training. And what he saw and heard was not lost

This he proved in his first year "behind" the horses. won fifteen races. Modestly he said, "I cannot re-mber what I did the next two years." Whatever it

He developed his own training methods and was not overie to learning the finer points used by top-netch men in this field. He improved and in 1983 in also starts here he piloted three winners, two acc-ouds and four thirts, finishing fourth in the points stending of twosty drivers of the Quinte trust.

He was laying the foundation for a reputation as a top-rer—and his efforts this season thus far are bearing out prediction of those who see a great sulky future for

He is easily the top driver at the Fair Grounds and of the Quinte Riding and Driving Cith. Thus far he has manned Gifty points. In four nights the compiled 42 points, twenty of them coming in a single night when he draws fire witnesses in six heats of racing and was second by a nees in the sixth.

He has had fine success with "Count Direct," "Suds-o" and "Captain Eld." Not only here but at King-n tee, where he was a deable heat event with the systain" and another heat with "Sudsgain," He has e-driven winners at Peterberough.

Now, as was mentissed, comes a big moment in his researching career. He goes to Torento as the inter-driver of a stable of fire houses. He will be in "biggest", most challenging company of his racing as if greenwood. Among the DeFoses herees are streer Hanover," "Butch" and Shy Council."

It perhaps is part of the realization of a young-ster's dream. It is in any ovent a big opportunity, and harmens men who should know predict a fine future for the boy who has come a long way in five years.

Aid From Abroad Remains An Indispensable Factor In Israel's Development

Aid from alread remains in indispensable factor in stract's development. Canahan Press reporter Ed Siton tells the story of the slope partnership between croid Jerry and the fast rowing young state.

While Irrael's military, forces fought against Arab invasion, health and welfare workers, many of them provided by the agency from abroad, helped the hard-pressed government com-bat disease among the immig-rants and establish them in the community.

On Wednesday of this week the House of Commons passed the first bill of the 26th Parlia-ment, after being in session for 34 sitting days.

This hardly seems a satisfactory rate of

Of course, much other work has been done, the groundwork laid for other bills which will be passed later.

Even if it were true that the House had spent the previous 33 days in talking, that would not necessarily mean the time had been wasted. Debate is essential.

Still, even the appearance of a little more despatch in conducting the nation's business could do much to restore the confidence of the

Perhaps, the present procedure needs some revision, some concentration of effort. Instead of trying to deal with so many complex matters at one and the same time, might more progress be made if the House wrestled with one problem until a solution was achieved?

The Quiet Revolution

The quiet revolution is still racing through Africa with the speed of a prairie fire. On Dec. 12 Kenya will become independent. By year's end the Federation of Rhodesia and By year's end the Federation of Rhodesia and Nyasaland will be broken up, leaving the three components to go their own way. For Nyasa-land and Northern Rhodesia this means a gov-ernment dominated by the native Africans. equal prominence to an unprecedented willingmess to accept great political upheavale. That
this willingness has not merely been made possible, but has almost been made inevitable,
by the march of selence is true. Nevertheless,
has there ever been an age in the past wherefit in has there ever been an age in the past where in less than two short decades, a whole continent has shaken off its chains?

The history of Africa has been one of centuries of human stagnation in a land where the luxuriant growth and decay of vegetation has presented a strange contrast. Now, suddenly, from the Mediterranean aboves to the Cape of from the Mediterranean aboves to the Cape of Good Hope, the people are stirring. These are not people of one race, but of many. They are poor, most of them are ignorant and the only thing that unites them is the sudden, almost inexplicable, stirring of a common hope. DEAR MOTHER — Couldn't agree more. It's thoughtless but rude to ignore any invitation. An R.S.V.P. about a wedding is a must. It all handwritten and in the same form as the invitation it should go promptly.

Any girl the age of twelve who could cance until 11, with having her syes at least fall half way down must have ela holding them up. When you get into your teens you're cou-rred in the dark unless you have a mixed party. But why wait until you're at least thirteen to stark mixing?

I go to the parties, dance occasionally, and have loads of fun-meleven, coming on twelve, and am staying young while I can. -ONE GLAD TO BE HER AGE.

DEAR ONE — Thank you, eleven-year-old. Parties with t girls can be grand fun.

Confidential to UNDECIDED NO. 2—Why Carry on a faz u insult both yourself and him when you continue going v or you no longer care about. Break the new gently, opini that people change and make new friends. So will he.

Pinch Hitting

The Kenmors, who have had a pretty slack schedule of late, will swing back into action tomorrow afternoon when they play a postponed game in Oshawa. Game time is 2.00 p.m.

This game is one that has already been postponed twice, first back on May 19, and then again last Sunday. The Kenmors are keeping their fingess crossed that nothing goes wrong tomorrow.

The locals still top the league standing but would like to pad that lead a little tomorrow. Bill Latchford will likely set the pitching nood and ceach Sid Forster hopes to have a full squad out for the game. Onhawa. has been running hot and cold and can beat any team in the loop on a good day.

Belleville's next home apeparance will be next Friday when they play host to Peterborough Rite-Ways. In the meantime they visit the Liftlock City for a game on Wed-

There are a couple of local softball games on tap here over the weekend, one each in the Belleville and Dis-trict and in the Commercial leagues.

The loopleading RCAF Flyers will be at the CNRA Park tonight to do battle with Joyce Real Estate B. R. and D. play. This game promises to be a hot one since Joyces can force a three-way tie for first by whaning and the Flyers can give themselves a little "room at the top" by doing the same thing.

Big Bob Butterfield or lefty Mike Ratushniak will get the Fyer pitching job, while Joyces will likely counter with either veteran Pat Maracle or their pew sensation, Blaine Healey.

Just two more weeks' play remain in the loop before playoff time and the race for the league crown looks like it will go right to the wire, involving Flyers, Trudeaus

On the Commercial scene, Corbin Lock clashes, with City Hotel in a postponed game at the Prince Charles School grounds Sunday affersoon at two cicleck. That longue race is a tight one too, and both teams will be solug all out for a win. Lightfucts are slop the longue standing but several clubs are bunched closely leading them.

Another of the Quinte Riding and Driving Club's o class harness meets is also on the sports agenda right, at the Belleville Fairgrounds at eight o'clock.

Four races, giving you eight heats, with some 28 horses king part, will provide plenty of action. And, of course, ere is always the little windows where you "pays your oney and takes your chance."

It's a good spot to have a little weekend fun, but you lack confidence in your own judgment, why take along an extra shirt, just for safety's sake.

HTS AND EXIS

From all comments, Wednesday's Zédie Frigner show here was a very popular one. And we understand that the Kinnson and the B. and D. solidall loop but made: a little moury on the deal, sibbigain sol much by the time between the comment of the comme

Mumbo Jumbo

The business of diplomacy must be frustrating. Consider, if you will, the difficulties arising out of so simple a procedure as "diplomatic recognition." In theory, if recognition is denied a government one just pretends it does not

nied a government one just prevenue a core success. But consistently, the time cornes when one must deal with the other governments, whether one likes it or not. And dealing with a non-existent entity can be a problem.

It wann't too had when the U.S. was at war with Red China in Korea. The war was being called a UN police action anyway, and the UN at least, admits that Red China exists.

102 admits that Red China exists.

as mediums at a seance.

More recently, 45 Brilish servicemen and women strayed, during a training exercise, into Venent territory. Some were captured and held for ransom, under a more discrete word of course, by the Yemlin Irepublican regime. Britain does not recognise the regime, so the United States provided a messenger service during ne-

goliations.

Now the British Government is reported to have agreed to pay about \$450,000, and the last of the hostages have been released, and Britain has offered an apology. Apologies are part of diplomatic etiquate. The locer always apologies, regardless of who is right.

Civilized man has always approved, for nations, the sort of conduct con-demned for individuals, and the formality of diplomacy lajed overse the farce. It would be diplomacy lajed overse the farce. It would be to pay random could just send a man with a blank chaque.

Weeding Out the Competition

There is no convert like a new convert, so the saying goes, and Judy LaMarsh, Canada's minister of health, is no emeption to the rule. Since she quit smoking recently, she has beat a big drum for non-smokers through most of the newspapers of the land.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor I do not know where this Swami of the Baugtali rystal Ball gots his seventh sense—or whether it was at a freak stroke of good guessing—but you must simil the gay was on the hall, so to speak, is his sturday pre-race predictions.

"Scidemrito" certainly gave his nom-de-plume the for he hit the horse on the nose seven times out leight and for good measure chacked in the right rediction for the Daily Double.

Personally I am glad the old gosson came up with the perfect call. It will or should help to clear up the taken idea held by some people that this agent is "Scinite". Such, I innist, is not the case.

If it were, would I not have come home Saturday tht clothed in financial mink and ermine after picking nen winners out of eight and the D.D. to book, even if prices were not what they were cracked up to be. Indeed, after the sixth heat, I was looking for a barrel, by had everything but the slacks.

Right now after two weeks' exposure this gay "Sel-omrite" has a record of ten winners out of streen, filth a record like that he abould get the lead role in the morte "Three Men on a Horse." Or at least an aderstudy part in the television show, "Mister Ed."

Perhaps now some people I know will desist from ling me "Horseface", "Second-Guesser" and whatnot and t asking if any of my ancient and honorable forebears a related to Dan Patch.

And there was no skullduggery attached. "Sel-domrite" is like Caesar's wife, above suspicion, and would not atoop to illegal measures. In my opinion he's a good herseman—and heluwa let better guesser.

he's a good becoming—and below is to better general.

Time was, the records any, that horsenom used all one of gimmicks, legal and otherwise, to get the best of their horses. Sometimes they used an electrically his horselide. When this was discovered, they use a gimmicks doming training but left them behind for one. But then filled for the ce. But the filled of a why or spor had the desired sail. The horses hower what the expect.

Another trainer had a horse that was grantly—rad layier than a white dag. A gun discharged by socient sont the lang to the hear trace of his life—so the problem was solved. Just as the horses started some stable hand would fine a gun near the harrier and Joe was off and flying.

Deping, of course, is an age-old method and is rap-dly being wipod out. In the old horse-artillery days a sure under the saddie-blanket helped a hot. Some aurd-hearted cusses used spars with filed rewels which rorked until samer-minded people objected.

Elmer (Montreal Star) Ferguson recalls that r trainers of flat racers have problems like had hoofs "dickey legs." They knew that a good horse affe this way would develop "hot feet" and slow up before distance was run.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Jack Kearss, the colorful prumoter, who created the Golden Era of boxing, died the other day and his pessing recalls many stories of his checkered and "cheque d" past.

Kearns and the famous Tex Rickard of Madison Square Garden fame, had many a verbal battle over gates like when Rickard wanted Fred Fulton to fight Jess Willard, but Kearns stopped that when he said a fighter named Jack Dempsey would fight Willard for nothing.

Dempsey would ingit winter for nontractive distributions. The wanted \$1,00.000 and Kearns guaranteed it with dollars in the bank. The fight was alsted for Too and theeks went like widdler. Then the camparas demanded \$55,000 for Dempsey or there would no fight. They left it to a jury of sportswriters and g men and the answer was \$27,000 for Dempsey.

After that it was Dempsey and Bill Brennan in the Garden with Rickard in the driver's seat. Rickard became the sole lessee of the Garden. At the time a young Frenchman named Georges Carpentier was the idol of Europe.

Kearus, the story goes, using Rickard's name, cabled Carp and manager an offer of \$200,000 to fight Demp-sey. Charile Cochrame, Carp's manager, had him tied up for a \$40,000 fight. Kearma saked him if he would stand in the way of his boy making \$200,000.

Cochrane and a man named Bill Brady decided to Carp the same amount. Two Cubans came up wit offer of \$500,000 to stage the fight in Havana.

Eventually everbody backed up leaving the arena to urns and Rickard. Each had a sketchy idea that big ney was in the making.

The two batiled each other, one for the Garden and the other allegedly for Carpentier. Up to this time Kearus had seted like he was Carpentier's manager. He hadn't mentioned Dempacy's end at all.

Rickard nearly jumped out of his shirt when Kearns announced Dempsey's share would be \$300,000. With the cost of the areas the initial outlay would be a mil-lion dellars, which was to be financed by the advance sale of tickets.

Rickard screamed, but eventually the \$300,000 was handed to Bob Edgren, a stakeholder and sole arbitrator of disputes. Kearns switched the money from Edgren to Jim Woods, manager of the Belmont Hotel and the eash in \$1,000 bills nestled in the Belmont safe.

Kearns took time out every so often to go to the Belmont and "wade" in the golden lettuce up to his knees. He had dynamited his way into the king row and in the doing had made Rickard a double-checker.

They jumped at each other all over the board—but in the long run and when the last switch was thrown it was Rickard who was at the throttle.

The gaie hit \$1,789,238 and Richard's wrists were The gate hit \$1,789,238 and Rickard's wrists were never any good afterwards from counting it. He was supposed to have been the master mind but had no idea of the vastness of the thing. He offered Kearns and Dempsey a guarantee of 37½ per cent of the fight or a sure \$300,000.

If Kearns had accepted the percentage. Dempsey's shafe would have been \$600,000. It was the first time Rickard ever tossed a ball and the first time Kearns failed to kill a floater crossing the plate.

But it was Kearms the practice of the big money era even though his imagination failed at the first big hurdle. He didn't know how big the money was going to be at that time. But it was he who brought it to Rickard and Madison Square Garden.

"Heyl I got a raise!"

THOSE WORDS have a happy ring in any household.

And, thanks to wise buying and increased production, they are heard more and more.

Canadian manufacturers are making excellent products and Canadians are buying them. This provides more jobs and everyone benefits. In a recent survey, 45%. of the people interviewed indicated that they had consciously made a switch from an imported to a domestic product.

There's still lots to do to keep our economy strong, to help create more opportunities, to make jobs for the young people coming on to the labour market. We all must continue to be "label conscious," because if each of us in Ontario can reduce his spending on imported goods by as little as \$2.00 a week and divert that money to Canadian products, the result could add up to a total of \$600,000,000 in Canada'in one year! And that could help create 60,000 new jobs!

Look at the label before you buy; if the design and quality are right, buy the product made in Canada. You help yourself, your neighbour and the whole province.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

About the only fiding you see in the public prints on far about the furtherming Seasy Listen-Floyd Pol-rous rematch are the ade for tickets for closed

The soual pre-maich tob-thumping for a heavyweight is bout has been completions by its absence. The ited States and Canadian boxing writers are either table bout with torque-to-theck or are not impressed sums their typewriter fingers have been discking that too far.

Scant reports sifting through from the boys in the w rate Liston a L4 choice to retain the title. Pai-ons is quoted as saying he is a changed flighter— there will be no sno-round flaces like the first loss step.

Liston is supposed to be inclined to agree but is the opinion Flord won't be around by the end of the h resmit. At any rate, however had it may be, it med match the pittini fisce that was the first oting between the pair.

Soury moved from Philadelphia, thence to Chicago, where he felt he was not popular with certain people and thence to December with certain people and thence to December where he lives in a new \$23.000 tonce and circum a athay brand awar Califlies equipped risk a television so and elephones.

In a magnine, interview Lifton said if the wins the match he is going to promote his own fights, "So I dent' to low will deer may another,"

He said he thought the same thing would happen in this fight as in the first, but when asked if Pai-terson night try to stay around longer by running, warp, he said "He dealt know how to run."

Is there any way he could possibly lose to Patterson? shook his heed. "Two thought—and thought— ere just sin't no way he can best me."

Measurable Patterson has told Interviewers that only way to keep Liston from bombing him is to the "first we my biggest mistate, not throwing chee back. Liston does respect mother may the That was obvieus. I threw one leit-hook missed and he jumped hallymy across the ring."

Did he know why he didn't three punches in the it fight, he was asked. "I don't know why I didn't we then—bui I know why I'm going to three then it time." He said he didn't know if Listes had a seco because he didn't have a chance to tops a punch.

One interviewer wrote. "This was a different Pal-erson than the one who first met Liston. He had pers-ective. He seemed confident in his new knowledge of liston and of himself. There was knowledge to build flight plan on. The impression he left was that he ould not be humiliated in this one."

Be that so it may. It will take a lot more than predictions to bring, a doubting faithful to the box-offices of theatres, areaus and other spots where the fight will be shown on closed TV circuits. For one of the most formidable obstacles to the fight appears, to

As a Madison Squaré Garden official stated: "Pat-terson insisted on going through with the rematch to prove he is not straid of Liston. "It" ridiculous to make people pay to see Floyd prove something to himself."

There is no doubt about the fact that Liston is memory-warry. It is something he "has not had a to do "I ha hit!". Which brings up the thought that a lot of doubting Thousson, just in case a miracle happens and Fatteress win, will say that focus yook a dire for a high juicy "third-fight" pure.

Then of course there is that Cassius Clay "Ten Mil-

CITY OF BELLEVILLE

LOCAL IMPROVEMENT

TAKE NOTICE THAT:

The Council of the Corporation of the City of Believille intends to construct as a local improvement the following Sanitary Sewers together with service con
where required by the individual owners.
 AND intends to specially assess a part of the cost upon the lands abutting directly on the work and the balance against the Corporation at large as follows:

	STREET	PROM	tro	Sethmated Cost	Corpor'na Share	Owner's Share	Additional Owner's Share Service Connections	Estimated Cost Per Foot Frendage	Retinated Annual Rate Per Foot Frontage	Notineted Sate Per Service Connection	Annual Payment Per Service Connection

d				T							

50' x 8.2252 = \$311.26 + \$236.30 for service connections or a total of - \$547.56 If paid over a period of 15 years @ 51/2% per annum the cost would be:

50' x 0.6202 = \$31.01 + \$23.54 for service connections or a total of - \$54.55

2. The special assessment is to be paid in fifteen (15) equal annual instalments. 2. Application will be made by the Corporation to the Oniario Municipal Board for its approval of the undertaking of the sald work, and any owner may within twenty-one (21) days affect the first publication of this Notice file with the Cierk of the Municipality his objection to the sald work being undertaken.

4. The said Board may approve the said work being undertaken, but before doing so may appoint a time and place when any objection to the said work will be considered.

Hon, Walter Gordon has revised the tax provisions of his budget—for the second time. Most people will approve of the revisions. Indeed, although not all will consider the altered budget wholly satisfactory, a strong case could be made out for the advisability of its provisions, as they now stand.

altered budget wholly satisfactory, a strong case could be made out for the advisability of its provisions, as they now stand.

Mr. Gordon was not only faced with the necessity of dratting a budget in a hurry, but this budget sho had to embody positive policies. He could not afford to submit a "mark-time" budget which would fill the gap until he was able to give the nation's problems and possible solutions more commendation. budget which would fill the gap until he was able to give the nation's problems and possible solutions more comprehensive study. There are no other alternatives. And neither of these alternatives is the type of situation which fosters confidence in a government.

It is generally conceded that the Diefener Government was ousted from office because the majority of voters considered it

Mr. Gordon's budget performance proved one thing—the voters did not get that kind of government.

The Liberals may regain the confidence which was thefus the day after election and which was thefus the government. The strong performed the strong was a strong to the strong was a strong w

Potential Problem

Mr. K. (the bald one), took a calculated risk recently, in his efforts to patch up the split be-tween Chinese and Russian communists. Speaktween Chinese and Russian communists. Speaking at a rally at Frankfurt-am-Oder, just before he left East Germany, he appealed for communist unity.

Nothing wrong with that, of course, from the communist point of view. But in the appeal, he revived the old Marxist slogan, "proletarians

of the world, unite!"

What in the world would happen to people like Mr. K. if the proletarians did unite?"

It is easier for a man to be loyal to his club than to his planet; the by-laws are shorter, and he is personally acquainted with the other mem-bers.—Eswyn Brooks White.

The most distressing aspect of the world into which you are going is its indifference to the basic issues, which now, as always, are moral issues.—Robert Maynard Hutchins.

Strictly Personal Man Cannot Laugh at

Own Follies

By SYDNEY J. HARRIS Purely Personal Prejudices: The kind of joke a person can-not take about himself is a sure-index of his character than the kind of joke he reliabes about others; what he does not find "dump" about himself is al-ways the weakest part of his nature.

The man who has too high a respect for women is as despised by them as the man who has not enough.

One of the great unsolved ride is that

"A man's worst difficulties be-gin when he is able to do as he ilker." The profound irony of people going to war for "ideologica!" reasons is that the people get killed, but the ideologies man-age to survive.

A suggestion from your bank manager ...

"For better service please use your own cheque book"

Soon, all the cheques supplied by your chartered bank will carry a special line encoded in magnetic ink so they can be sorted and listed by electronic equipment with greater speed and accuracy than ever before.

However, the counter cheques sometimes used for paying bills do not have this encoded line, and therefore cannot be cleared in this way - they must be put through by hand, slowing up the clearing process.

By using, whenever possible, cheques from your own cheque book...

You enable the banks to make the fullest use of clearing methods that handle your cheques in the fastest, most economical way.

And, an encoded cheque-unlike a counter cheque-contains all the information that assures accurate handling in the clearings. Your cooperation in carrying and using your own cheque book

would be greatly appreciated.

DEAR DORIS - I am a girl of 23. Last Christmas I met He will be coming home this August. I am very fond Because of his letters and gifts, I feel he is fond of

me too.

I am looking forward so much to seeing him again, but recently I have met another boy who has started to date me. If
on not know what to do about this for I'm adraid the latter
will get too serious and I do not want to hurt him. Should I
date this fellow will Mayust, or should I tell him about the first
one? I solay his company and do not know whether or not to
stop seeing him.—WONDERING.

DEAR WONDERING-Unless you have promised un-tring love to one or the other of them, why not date both, quite openly?

Confidential to TIED-UP SEVENTEEN — Unless you're weed out, how on earth can you meet the "decent boys" your ther says ahe would approve of?

(If it's etiquette, ask Doris. Send a five-cen nped, self-addressed envelope with your question.)

In fact I paused to chat with Bobby Bunton the night King's Court was here and Bobby whispered that he a set and ready to go.

The older guys may be long on the years and short the wind, but they haven't forgetten the tricks of the de and they'll use the bean in place of the legs.

It should be a sight for ancient and other eyes to gurs like Johnny Mowatt, "Mouse" Bush, Art Wright it the rest of the Rip Van Winshles cavers in their own y on the diamond. I wouldn't miss it for the world.

That sharpf import from Sicily, "The Beaal," head-lines the wrestling card here Friday night and they cid ine that the halocevered bloke and his manager, they will be the sharper of the state of the state they think they will make the sharp they they forestenant Jim Rody. And there is good news for the Italiane faithful None other than the former "Mr. America", Two Marine will be on hand to battle a new face, John Heath. Heath is a rough-bone customer and the opener could be almost as good as the main bott.

STRETCH BATTLE

Three clubs are coming down the stretch in a tre-mendous nock and neck battle for top henors in the Selleville and District Softball League.

When this was written, Trudeau Motors and Joyce Really were tied for first place with 18 points and the RCAF Fiyers had 18. Each club had three games to play.

Trudeaus visited ECAF last night and if the Flyers won that one, the "banans bunch" had tightend just that much more. Tonight Joyces visit the tail-end Bobcata in another key tilt.

The schedule winds up one week from tonight and all four games next week promise to be of the utmost importance. Joyces are at Trudeaus Monday, RoAP at Joyces Tuesday, Bobcats at RCAF Wednesday and Trudeau at Bobcats next Thuyday.

Playoffs will commence the following week but if two of the top three clubs end in a tle, sudden-death games will be played to decide the postilons.

Playoffs will pit first vs third and second vs fourth

It has been a long while since the league has seen h a close, hard-fought race right to the wire-

And it's saybedy's bet as to whe will cop the pen-sant. No more than four points have separated the top three clubs at any time this season.

Wife Unable to Make Friends

I did manage to keep her going to a doctor for one y after our haby was born. It didn't seem to do her any re Now she has given that up and just won't go. Some times I wish we hadn't got married. — NOT TOO LATE.

DEAR NOT — Don't give up. H. she is depresses worried, tired; you are her best hold on hope. Quarrellin with her is so help. Try encouragement and praise. An suspect a physical basis enough to get her to a doctor, will nilly.

To MOTHER OUT OF WEDLOCK — Something has Apart from anything else, he should be sharing concern this baby that's on the way. You can find a social work will be a real friend now, at the Children's Ald Society of ville, Hastings County and Trenton, 83 Motra Street, Belle will be a real friend now.

DEAR DORIS — I was interested in a letter which appeared in your column a while ago from a widower. I am sure? I know the lides who would instered, him.

One is a teacher, who loves sports and who lives alone. There is nother friend of mine who is always: interested in other people's problems and helps them. They both have a wonderful sease of humor. — PECOY.

DEAR PEGGY—What would your friends think of your match-making? Perhaps they are both quite happy as they are. In any case, I can't take on the responsibility of run-ning a sort of anateur marriage bursan. Letters leave so much to the imagination.

DEAR DORIS — As you suggested, I went to the Mental Health Centre where I learned a lot about other people. I was told I needed self-confidence and patience to let things werk out. I can thank you for the three best months of my life. Yours until things work out for better or worse. — HOPEFUL HARRY.

DEAR HARRY — The first step is coming to under-stand the other fellow. You had the courage to go where I sent you, and got needed insight. Stick with it.

DEAR DORIS — I don't know what to do. My boy friend says he likes me but he is always talking and feeling with this other girl. Then when I sak him if he likes her he replies, "I can't stand her."

DEAR MIXED UP — My guess is he likes all the gir If a boy can't flirt at 18, when can he? You can too.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Ray Judd may not be a King Feigner as far as trickery with a softhall is concerned, but in these boeks he is one of the smartest mound whards ever to show his wares in these parts.

Judd is pitching for the Toronto Richmond Hill fast-team this year and is adding more records to a number is beyond his memory.

The Mormon hurier is a crowd-pleaser and a crowd tracter." Setthall attendance broke all records in "extractor." Softball stiendance broke all records to the Peterborough area when he was pliching for the Lakefield team. He was back in his old stample grounds a short time ago when he and his cital played in and wen the annual Peterborough softball

His iron-man ability again asserted itself in the tourney then he hurled all three games Richmond Hill played, and a the doing, fashioned another Liftlock City record.

He struck out 53 batters in his three-game mound re. And he did it in 90-degree weather. He had strikeouts in two consecutive games, all done in just r hours.

The week before in a Toronto tournament he whif-fed 60 men in 25 innings. He pitched in three games in 24 hours and lost the third one 1-0 in eleven in-

The Richmond Hill club plays in the Toronto Me stball League, one of the top circuits of the city, the Peterborough tournament time, the club had we m games and lost three, two to Markham, and one unklin, who has Norm Bagnell as their mound ace.

Judd soon adapted himself to the few differences were setball and fasthall rules. The distance from plate to the mound is 43 feet instead of 49 as is thall and the distance between the bases is 68 feet feed of 55. The runners can go with the pitch.

In 66 hungs of league play with the Bichmond Hill club Jadd famed 121 batters, walked but two and given up 19 hits. His "bread and butter" pitches are a rise and a sharp drop. His control needs no comment.

Despite this, Judd told a Peterborough group, he feels t something has gone out of his vigining. "I'm getting ed for far too many home runs and the hitters are ing on to my special pitches."

The starry hurier said he has a wholesome r for the ability and mound personality of a gay ; Pat Haracle, "Ole Rubber-Arm," who recently brated the fourth anniversary of his 62nd birthday.

Judd and Marsele have not on a few occasions in mound ducks and each has remitted in what could be called softball classics. If memory is correct Paddy has beaten Judd on a couple of occasions in exhibition and playdown tilts. One game that went twelve image sedded in a scoreless tile at the CNRA Park.

And Judd would very much like to cross softhall rapiers with Maracle again. And Mr. Maracle concurs He proved with his outstanding hill performance against The King and his Court that be has lost none of his mound ability. I believe another Judd-Maracle meeting

I understand that the suggestion of an exhibition tilt here between Joyce's Resily and Richmond Hill has been made, but the Toronto club's manager did not take too kindly to the idea. However, it is stated, that Judd will bring in persuasive powers—and the game may yet be a

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor Silver-haired Jack, Jarvis, former British boxbig expert, looking almost as spry as he did thirty years ago, slowly shook bis head. "If you're a Patterson fan," he said, "forget if, Liston will have no trouble retaining his beavyweight champlosship."

In case Jack's name rings a bell he was the boxing ach at Queen's University for more years than he res to mention. In fact he taught the college boxers will 1929 until he retired two years ago. He now sides in Colborne.

At least so my old feudin' buddy, Michael J. Rodden, erts. And El Miguel should know. The pair formed close friendship over a period of three decades.

"Patterson was a beaten man before he climbed into the ring with Liston in the first fight," Jack said. "It may take a round or two longer this time but I think Liston will end it whenever he sees fit."

In his opinion, Jarvis said, Patterson lacks some of the traits that go to make a real champion. "He was nerer in a class with the Dempeys, Tunneys and Louls," he said. "If things are going his way he is all "right, but if he go the behind, he decen't seem to be able to make up lost pound."

Liston is not a good boxer, in the Jarvis opinion. "He typical example of the modern prizelighter, a slugger traver, and hit-and-get-it-over-with type.

"As a matter of fact," Jack said, "boxing is a lost There are few, if any, good boxers in the fight se today. They are taught to develop offensive tac-that sometimes border on brutality."

"Years ago," Jarvis sald, "It was a pleasure to attend a boxing match and watch the young men of the day perform, who were past makers in the art and who stack closely to the Marquis of Queensberry rules. You see little of the weaving and bobbing and the fine footwark today that characterized the boxers of those

Jarvis is of the opinion that today's coaches, tra managers, not to mention officials, are well below are of those of twenty years ago.

"There is sometimes too hig a margin in the points ring by the Judges," Jack said. "They are not con-ent and sometimes I wonder how they do it."

Speaking of boxing, there is a mild furore over in Nigeria where Gene Fullmer is scheduled to meet Dick Tiger, the native son, who holds the world middleweight champlonable. There is a runor afoot that Fellmer is seeking another postponement of the flight slated for July 27.

It is the first world championship fight ever held country and the highly emotional Nigerians are wrou over Fullmer's request for a month's postponement ow a sore foot to heal.

Much of the bad feeling now being generated stems from the suspicion among many Nigerians that Fullmer doesn't think their country is good enough to stage a titular battle.

The American seemed reluctant at first but when the Nigerian government put up nearly a quarter mil-llon dellars for the flight's promotion, he signed. Jack Solomons, the London promoter, has already invested 325,000 in the flight for publicity, printing and the erec-tion of special stainds.

Insurance Firms Gouged?

"One motorist, perturbed by the prospect of higher automobile insurance rates, has been doing some wondering. It arises out of his own rience," reports the Windsor Star.

It seems this motorist is wondering if the costs of repairs to damaged motor vehicles are found in the county, most title for the county, most title for the county, most title for the county of the c costs of repairs to damaged motor vehicles are

A year ago the family car had an argument with an old stump. Though it won, it did not escape unscarred. The insurance man sent around a garageman. The garageman made an estimate. We thought it high and questioned recent scandals.

The pastimes of current Society are of course no worse than nor different from those of an estimate. We thought it high and questioned items, especially one for a new grille. What was wrong with the grille? The eagle-eyed garage-man pointed out a dent the size of a pencil-end Strictly Personal which had escaped our notice. Could not be hammered out, so the only thing that could be done was to replace the whole grille, he said. We Children Grow said monsens, or rather several words to that effect, and the insurance company was saved about \$27. But the insurance company, by the terms of its contract, was not only obligated to pay, had we insisted, but was quite willing to do

The Windsor Star suggests that, if insur-ance companies in a large community estab-lished a paint and body garage for themselves, insurance rates might not be so high. Then, having: second thoughts about human, and insurance company, nature it saks plaintively:
"Or would they (the insurance companies) be
prepared to have the work done 'at cost'?"
Even if they did, this would not solve the

man pointed out à dent the size of a pencil-end which had escaped our notice. Could not be ammered out, so the only thing that could be lammered out, so the only thing that could be lammered out, so the only thing that could be lammered out, so the only thing that could be lammered out, so the only thing that could be lammered out, so the only thing that could be lambered by the Even if they due, this would not solve the type of "sold-the-insurance-company" gouging involved in replacing a whole grille for a pen-cil-head den! Perhajis it would be possible to eliminate this sort of thinking by reviding the present "edductible" clauses. Instead of making a set amount, \$25, \$50 or \$100, deduct-this even country. making a set amount, 320, 300 or 3100, ununable ble, why not require the car owner to act as a type of "co-insurer" and pay a certain percentage of the total bill? This percentage could be large for minor repairs—say 99 per cent up to \$25, 50 per cent up to \$100 and 25 per cent up to \$200. Then it could decrease

End of the Establishment?

By John Allan May in the Christian course on this mark the end of Society in the past of Stabilishment, as consisgambling and, to flirtation — but Does this name the medium of society in the past with season and the past with the major force in the political bendering of Sixtian; and the political bendering of Sixtian; and the political bendering of Sixtian; are being triggered, although of course they have not been precourse they are the question and the post of the past of the past

However II is not, I think, that the people outside Society are filled now with a great moral ferror, a newly nealous puritan-ism, but rather that they see all this as both distasteful and ir-relevant.

One can see an instance of this loosening in the manner by which the next Conservative leader is being chosen. Tradi-tionally the 'Tory leader was chosen, not elected. Originally they were chosen by the sove-

excitement runs in the Chevrolet Family!

Lucky you! Summer's here! And nothing (but nothing) can beat the carefree feeling you get as you head out on the open road in a brand new car. Fact is . . . summer time is travellin' time. And for travelling . . . you just can't find a better way to go than Chevrolet! Why? Here are 4 good reasons: Chevrolet - first in full-size luxury with ex-

clusive Jet-smooth ride! Corvair sporty-going as all get-out, with plenty going for it in the styling department too! Chevy II — thrifty way to go places in style. Corvette - with dashing performance to match its spirited styling! And though all four are as different as can be — all have this in common. They're all exciting to drive. They're all a pleasure to own! And they're all Chevrolets. So join the family (Chevrolet's, that is) and get in on the fun and excitement that is Chevrolet's alone.

You'll be in good company, with the thousands of other happy Chevrolet owners who have already discovered, excitement really does run in the Chevrolet family!

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor THE CUTOMERS ALWAYS WRITE

JKS penx:—"I sometimes wonder what becomes of the great stars of sport after they have been retired. For in-stance, Ted Williams, the great sliver of the Boston Red Sox. What goes on?

The great Williams was not only a baseball star who cracked the \$100,000 a year golden circle but also is a hunter and fisherman of extraordinarity high

He is an expect marksman with rifle and shetgun. The story is told that he wiped out so many pigeons on Boston Common that every time the Red Sox came to Fennay Fark their feathered scoals would report the fact, and the flock would take off for parts unknown until the Boots went on the road again.

He is the gun consultant for a multi-million dellar erican department store—and several guns, rods and is hearing his name are being marketed.

As a boy Williams says he was a slim, scrawny kid with a natural love of guns and hunting. He found that shooting developed his vision—an advantage to any future baseball player.

He says his favorite kind of hunting is ducks ever decoys. He has gunned for all kinds of birds and game in the United States and Canada. "There's a great kick in watching a huge flock of ducks come winging at your hide."

Grouse are more cunning, more smarter than ducks, s Williams. "They have amazing speed, get away and sig-sag in a strange manner." Peasants are tricky, says the baseball star, who never hunts those birds

A cock pheasant is one of the smartest birds extant re clever, sometimes than the hunters, says Williams or and ligh nym like a racebone with head and tail h and will fly only when cornered." And thrifty Wilms remarks, "I often get feathers I can use in tying s for flahing luree."

Williams believes hunters should practice until their skill enables them to make the meretful quick kill. He urged those not too sure of their marks-manship to take up "till" hunting-select a favorable site and wait for the deer to appear.

"All you need," he said, "is plenty of patience, warm clothing, sandwiches, refreshments and genial companions. I always enjoy a veteran guide when deer hunting. No matter what experience you've had, a guide knows the country and where to find the deer."

Williams deplores the fact that hunters are not careenough in the woods. "Each year," he says, "the
dod are getting more and more crowded with guns, many of whom are darned fools and know noslimp
s, many of whom are darned fools and know noslimp
t their weapons. If more aportsmen would consider
t hunting is dangerous, there would be fewer accidents."

"Tre seen more crary things happen," he says. We were after deer in Malie one fall and what did we come across but some joker who had wounded another guanaer. Seems the poor fellow was bending down over a brook for a drink, when this gry seen him across the stream shd starts fitting at him. He sald that he drought the man was a beer, but I've never seen a work of the stream should be seen to be seen to be stream should be seen to be see

Another time a farmer put an old hat of his wife's the limb of a tree for a gag. Such enough, passing nters shot the hell out of it."

If JKS wants to contact Ted Williams he can reach him in any hunting and fishing season at his new sporting camp on the banks of the Miramichi River in New Bruswick. It is the favorite rendervous of Ted and his lovely wife Lee—far from telephones and

Lost Wiggle, Belly Dancer Asks \$100,000

AKRON. Ohio (AP)—A 21-year-old belly dancer has sued a trucking company for \$100,000 because, she claims, she lost her wiggle in a traffic accident last summer.

Juliana Houser of Akron alleged that the auto accident in nearby Ghent on June 28, 1982, impaired her wiggling ability on the night club circuit. She sued Bender-Loudon Motor Freight Incorporated of West Richfield.

field.

A truck hit her car in the rear, Miss Houser said in the suit filed Fridsy in common pleas court.

Miss Houser stated that she was a professional in the Arabian belly dance field.

A Long Life, Fully Lived

If coming events cast their shadows before rry W. Ackerman's life might have been in narry w. Accermans his might have been in-tended as an example to all of us of the ideal solution for what it is predicted will be tomor-row's big problem in our civilization—the useful and profitable employment of years of leisure, Mr. Ackerman retired from active business

at a comparatively early age, and then lived far beyond man's allotted span. For over fifty years he was freed from the routine of the workaday world—yet managed to fill these years with an outstanding record of achievement which saw his stature in the eyes of his fellow citziens grow as his years advanced.

citizens grow as his years advanced.

One of his secrets was the diversity of his interests, early demonstrated in his working years, and the secrets have a developed his condensation of the secrets have a developed his condensation than well-resulted. Banked to rattre, he promptly made use of his free time to further the interests of his fellow citizens in many ways. He had already taken an active interest in miningly applies, earning the respect of his colleagues and the confidence of the voters, so that he was fellowlike the president of the confidence of the voters, so that he was felleralities their mentitizes, when so of his consegues and the confinence of the voters so that he was Belleville's chief magistrate when scarcely out of his thirties. This experience in council work, combined with his professional knowledge of education gained in his teaching years, equipped him admirably for service on the Board of Education.

Ranking at least the equal to his interest in education was his devotion to his church and he was able to combine these interests by long and faithful service to Albert College, to which he gave freely not only of his time but also of his

These interests, though, by no means exhausted Mr. Ackerman's desire to co-operate with his fellow citizens in furthering the growth of his home community. He assisted in forming the present Chamber of Commerce from the Board of Trade, was a past president of the YMCA, a Rotarian, a Mason and Shriner and an enthus-

routing, a mason and Shriner and an entitus-iastic sportsman.

For a man with such widespread abilities, even 95 years looks like a short time in which to achieve-on much. Believille has gained much through the manifold interests of Mr. Ackerman in church and municipal affairs and great public

It will do this because the party's principles
are not the product of the mind, but of the heart,
It believes not in reasoning but in emotion. Its
members pride themselves on being 'right-thinktag people—using the word 'right' in the zense of proper or just, rather than the opposite of left. Indeed, we are told that one of the aims of its rejuvenation would be to give greater em-phasis to individual rights and Christian

principles

It was in precisely this atmosphere of righteous individualism in Alberta that Social Credit
was born. At that time, though, rightcourses
demanded concern for one's unfortunate depression-racked neighbor and Social Credit
found the answer by adopting the monetary
theories of C. H. Douglas. Now it wants to restate its financial policy in terms not so closely
associated with the Douglas pagen. Today, this
belief in the necessity of monetary retorm is

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Jack Adams, famous ex-National Hockey League iminary, and mentor of the Detroit Red Wings for ver three decades, was in town yesterday.

So were "Red" Kelly, his lovely wife Andra, Johnny Ison and Bill Dineen.

"Toota" Holway and I met the famous hockey quar-et in an aura of sadness in the hallowed ground of the Selleville cemetery.

A flicker of recognitional gladness replaced tem-orarily the sadness and sympathy in their eyes. I subt if four National Rockey League figures ever et under more sorrowing circumstances.

They were paying the last tribute to the second of a couple of life-long friends, the late Mrs. Rossile Eggert who passed away in Fiorida last week. Mrs. Eggert died scant months after the demise of her husband, the late Larry Eggert of Detroit, Florida, and Rossile Eggert of Detroit, Rossil

The long happy relations between Jack Adams and is former Red Wings and the Eggerts, have been noted to this column before. But the shock of two sturdy iends passing within a couple of months had its im-sect on not only their Red Wing friends but all who

But after the obsequies "Jolly Jawn" bear-hagged "Red" M. P. and Johany. He became his cherubic balk-ative self and not a few reminiscences were aired.

"How's politics?" some one asked "Red." The ever-underst Mr. Kelly, M.P., smiled that shy smile. "Fine," he said, "we're making a few mistakes perhaps, but we'll get there."

The last time I aaw Johnny Wilson was about ten years ago in the Eggeri cottage at Rossmore. Larry, that served half-chiletens, cooked a delicious golden brown and Johnny and the efferencess Marty Pavelish sized a chicken-chewing marshon which Johnny we because Marty could talk feater. An interesting spectroscane Marty could talk feater. An interesting spectroscane in the control of the chileten and the control of the chileten and the chileten

But the big surprise of the afternoon exme when Jack Adams, who should be ready for the ole rockin' chair, pipe and slippers, told me he had exchanged the test of an NRL managerial office forefull-things—the figurative cockpit of an unlimited hydroplane.

"What a guy-what a guy." Jack chuckled into his and chin.

"Who, Red Kelly " someone asked.

"No!" said Jack. "The guy who won the Detroit Gold Cup before 300,000 people. Why we've got a boat, the 'Milsa Tahoe', that can do 130 miles an hour and can take the turns on a plawheel."

The irrepressible Adams, whose name will never be gotten while NHL teams are playing, has taken to his new sports love like an executive to a five o'clock mar-tini. But the sport is not altogether new to him.

During his latter years with the Detroit Red Wings, Jack was rated very highly by the American Yacht Club Association in Detroit. He worked hard for the sport ation in Detroit. He worked hard for the sport off-bockey time and was very highly rated by the out boys and officials.

Jack carries his sports loves and his weight with the same carefree attitude. It is not a case of "off with the old love—on with the new" because Jack Adams was and is pa dyred-in-the-wool hockey man. Nothing living can take his records or his memories of the NIL from him.

"We had a guy up here who was a pretty fair speed out driver." a friend said.

Jack waggled a finger, "You certainly did—and he was one of the best. And what a boat—a beautiful thing with a couple of Rolls-Royce Merlins to her in-nards."

Planning Is Popular

The Pearson Government has introduced slation to establish a 28-member Economic incil of Canada.

For once, the four political parties repre-mited in the House of Commons seem to have illes into the appropriate slots in their attitude wards the bill.

The Progressive Conservatives are opposed, their leader, Hon. John G. Diefenbaker, terming the proposed Council "an agency to promote a planner's paradise."

The Socreds approve in principle, and regard the legislation as weak in spots, concavably in respect to monatary policy.

The Liberals approve because the Council will aim at "indicative planning" rather than "compulsory planning."

The acceptance of national planning as a normal procedure in a free-enterprise economy is too recent for us to have any assurance as to whare-it-will eventually lead us. President Sukarno of Indonesia wants a pleblacite held in the Borneo territories which are scheduled to become part of the Malaysian

This, protests Premier Menzies, does not remier Menness, does not seem consistent, since President Sukarno does not intend holding a plebiscite in West Irian, that portion of the island of New Guinea which In-denessa recently took over from the Dutch. Of course, Menxies is not really surprised at

But we may be sure that the astute Australian prime minister foresees the possibility that the day may deaw when Indonesia wants the rest of New Guines, now ruised by Australia. In such an event, Mr. Megnies will be able to point out not only that Fremier Sukarno opposed a pieblectic in West Irlan but also that he, Mensies questioned the value of a pieblectic in Borneo. Since the majority of the inhabilitant of New Guinea are backward sawages, it is obviously much too trisky to proceed on the assumption that they recognize good rule when they get it. tralian prime minister foresees the possibility

A federation of all humanity, together with as sufficient measure of social justice to ensure health, education, and a rough equality of op-portunity, would mean such a release and in-crease of human energy as to open a new phase in human history.—H. G. Wells.

Pattern for Free Unions

The United States and Canada share an asset which is almost unique - the advantage of cheap water transportation far inland me ble by the Great Lakes. A few of the world's mightiest rivers, the Amazon and the Mississippl, the Nile and the Yellow, offer the territories through which they flow somewhat similar benefits. But our huge inland seas top them all cargo-carrying capacity.

Even so, if the report of Mr. Justice T. G. Norris on labor strife on the Canadian side of the Great Lakes was limited to this phase of our momy, it might not be considered of all-embracing national importance.

Mr. Justice Norris, however, makes it plain that the pattern of SIU control could easily be extended to other fields of transportation, particularly as unions with a similar ruthless philosophy are already operating in these fields.

His report, therefore, in providing a suggestion for the eradication of SIU lawlessness, also provides us with a blueprint for the defeat of other union dictators.

It is just this point, though, which will make organized labor uneasy. Government imposed trusteeship, it must be remembered, is only a means to an end and its utilisation, like that of any other means, is only justified if the end ight is desirable.

Outside of the SIU bureaucracy, there will he few who will dispute that the objective for which Mr. Justice Norris would use this means

which Mr. Justice Norris would use this means is much to be desired.

But such government trusteeships could be used for other, questionable purposes. The use of this weapon will establish a precedent which organized labor cannot be blamed for regarding with instinctive distrust. It speaks well for the Canadian Brotherhood of Reliavey, Transport and General Workers, thereton, though laws extracted willingpass to accept this recommendation and the trusteeship it involves. But the government, if it is wise, will be careful to write ernment, if it is wise, will be careful to write safeguards for labor into any legislation author-

Meanwhile organized labor and mange might pender the fact that Hal Banks and the SIU could never have established such a stran-SIU could never have established such a stran-glehold on Canadian lakes sallors had it not regenoid on Canadan lakes saidts fact it not re-ceived a warm welcome. In an effort to get rid of the since - disbanded Red - dominated CSU, shipping firms and labor leaders worked hand in giove to aid Banks. Those who persist in fight-ing fire with fire sometimes get burned.

Saud Story

One Vienna newspaper reports that King Inn Saud of Arabia has decided to live perman-ently in Austria. His 80-women harem is en route to join him, according to the Abendrexpress and the king is spending money at the rate of about \$12,000 per day.

All this is impressive, even a bit awe inspir-

With an annual outlay of \$60,000-\$70,000, the Rangers will need an average attendance of 2,500, it is estimated-That's a lot of turnstile clicks these television nights and as my Kitchener Iriend remarked, "I'm from Missouri."

"KILLER AND THE GENTLEMAN"

It may sound like a TV mystery show title but "Killer" Kowatski and "Gentleman" lim Rady will be playing it just a big rougher and more for keeps than the boys on the one-eyed mossier do when they tangle in Friday night's main bout wrestling show at Memorial Arens.

Kowabki who couldn't have a more suitable first

Don't let Hady's maniker fool you. He is good and he is wise to the ways of Kowalski's type.

The bout, over a two-of-three falls distance, should give local fandom plenty to roar about. And you can bet, it will be the Killer's hide they'll be roaring for.

A couple of big and dangerous giants, The Des-troyer and The Mighty Ursus, match their strength and brute force against each other in the evening's semi-final. They may have to reinforce the ring for this one.

Rockefeller Opens Fire

The Associated Press reports that Governor Nelson A. Rockefeller of New York State has challenged Senator Barry Goldwater to an all-out liberal va. conservative fight for the 1964

Governor Rockefeller has done this without Governor Rockefeller has done this without naming Senator Goldwater. This, of course, is a neat political trick which is not unknown this side of the border, too. One makes the shoe fit — and then blackens it thoroughly before one? a poponent can get his foot in it. In this way one exapes the charge of deliberate denigration of a formidable atternary.

or a formmanie saversary.

Governor Rockelleir alleged that there was be an effort afoot to wild conservative southern and western Republicans behind a candidate, de while writing off the northern states. He then daded jhat it seemed to him incredible the Republicans would offer such an alternative to the "unprincipled opportunism that has captured in the Democratic party."

The beauty of all this sential that Rockelleir can be also all of the Democratic party.

support his charges, both against the conserva-tive wing of his own party and against the De-mocrats, to the hilt.

What he does not add is that the liberal wing of the Republicans, under whose banner he hopes to first win the Republican nomination and then its presidency, is just as inconsistent as either the conservative wing of the Republi-

cans or the Democrats.

The Democrats, of course, draw their political strength from two main wells—from the southern states, which are essentially conservative, and from the working masses of the large morthern inclustrial centres, which may not be liberal but certainly have little in common with the southern conservative. To weld these two factions, the Democrats add a dash of intellect-

ual liberalism.
This has worked in the past, but it becomes increasingly difficult to see how the Democrats are going to continue to ride these two horses, Burdenad with the resposibilities of power, President Kemachy has had to take a stand on the racial issue which is tearing the south asunder and he has come out on the side of liberalism, and he has come out on the side of liberalism. which accords with the constitution of the U.S. This, though, may cost him dearly in the south, and may even lose him votes in the industrial north, where all is not sweetness and light be-tween racial groups in working-class districts. Senator Goldwater might win some support

in the south and west, and from those in the higher-income brackets in the industrial north, but his chances of getting much support from organized labor are alim, indeed.

Rockeleller, whose divorce severed his last

Rockefeller, whose discore severed his last claim on the slightner of the conservative-main-claim on the slightner of the connervative-main-claim night make form inroads in the Democratic voing strength in the northern clies. This, however, would certainly not be enough to win him the presidency. To beat the Democratic, he would have to gather some electoral college votes in the south. He has the advantage over Kennedy in that he is not responsible for sending troops to asfequant the constitutional rights of Negroes. But if this is enough to enable him to win southern support, it will mean that he has succeeded in copying the Democratic Party tactics he has pow so vigrous-Democratic Party tactics he has now so vigorous-

ly denounced.

Party allegiances in the U.S. make little sense—as little, in fact, as did the manner in which the Liberal party in Canada once welded the heaking of the the radical-minded Western farmer and the conservative-minded Quebec has bitant into a stranglehold on power in Ottawa.

Cause for Discontent

People who wonder what all the fuss is it in Quebec might discover a key in the latest statistics for unemployment in Canada

Quebez's working population makes up a little less than 28 per cent of the nation's labor force. Quebez's unemployed number over 37 per cent of the total for all of Canada. Ontarto has 37 per cent of the labor force; 26 per cent of the unemployed.

28 per cent of the unemployed.
Put another way, this means that one person out of 17 is unemployed in Quebec. In Chatrio, only one person out of 29 is jobles.
Some, but not much, of the discontent in Quebe is overty concerned with economic conditions. But the existence of such conditions.

ditions. But the existence of such conditions provides a fertile ground for the breeding of grievances of all kinds.

grievances of all kinds.

Perhaps, the best thing which Englishspeaking Canadians could do to check the separatist movement in Quebec would be to makecertain that Quebeckers gets as good an economic deal as possible.

Canadian Astronomers Ready to Record Eclipse

Precision navigation and timekeeping are vital aspects of eclipse observation flight.

Malcolm Thomson (left) checks radio signals with navigator, Brendan McGann.

As the moon's shadow sweeps scross Canada at speeds up to 3,600 miles an hour, on July 20, a high-flying scientific expedition of Canadian astronomers and their guests from overseas will be studying the phenomena of total solar eclipse. In concention with the mena of total solar eclipse. In co-operation with the R.C.A.F., scientists from the

shadow. Place of renderous is scheduled near Grace Stru-Lake, N.W.T., where the time of eclipse is noon local time, giving observers a clear view on the beam. Viesal and photoelectric observations, made while the blinding lights of our local star is momenturily blotted our by the moon's disc, will add to man's knowledge of the sun —controlling factor in earth-ly covironment.

e Brockville—for old time's sake—Fil call them gedemas, at present in second place in the New marie Baseball League, will be the guests of the rs in an eight o'clock game at the Fair Grounds

Young Dave Smith, one of the brighter stars of the Belleville funior "B" hockey club last winter, is the accommondment of the Brocks-and will likely see hill sctio here this svening. Smith is rated as one of the better pitchers of the league.

Breckville, by the way, is entered into the Ontario could Association senior playdown series and more in Ekely will meet the Kenmors—if they win their pue title—in the first round of the titular series.

The record of the Kenmors to date is thirteen and two y actual count, but the withdrawal of the Kingston cluind the cancellation of games played by it reduces the orster crew mark to eleven and two.

There is no doubt that the Konnies are one of the better clubs in the league but 1/dou't think they're that much better. The other clubs like the Petes, Port Hepe-Ajax rae well-balanced aggregations and have given the Kenmors some pretty stiff battles.

Some of the tustles could just as easily have gone the other way but in one or two cases, the "breaks," that mental or physical lapse at a critical moment, and a kiss or two from Lady-Luck, have always ended on the right edde of the ledger for the Forster boys.

On the other hand they have proved they're a chips down club coming up with clutch plays, some brillian relief hurling, and the right hit in the proper place that have pelled a game or two out of the fire of

The term as a whole and Cosch' Bid Forster in tritualar deserve a better fate than circumstances have cowfod them to date. Financially they started off poor as church mice—and they haven't risen above at rating through the season to date.

Three or four good gates, say of 300 to 400 fans, which are damed good gates in this city of lethargic diamond fans, have helped the exchequer, but the rats of expenses are always hungry and keep gnawing away at the little cheese in the club's pure.

The King and His Court notiball caper netted little to the club after the hig Feigner "take," per-centages, various organizations and sundry expenses were paid.

And the higgest mainstay of the club apart from his_frontline duties as coach is 5ld Forster. He is a big geed-astrod ear who takes "ribbing" in his stride —but net the fool-mouthed personalities that were handed to him the other night-chalakte of his players us_a whole, favors nose and plays to win.

It is not many coaches who will drive from Lake cld while on vacation to Belleville in order to be with club. Forster did this on two occasions. Besides is he has to look after the odd jobs that go with every Il club and every ball game.

"The fans rib me when I go out to play," he grinned the other day, "but the truth is I do not want to play. I am the casch and that is what I want to do. I have not actually played in four years and I never practice when the boys are out. I'm too bury.

"The fact is," said Forster, "the club is beest with job difficulties. By; that I mean on game nights some of the best players have to work and I have to inject myself into the game."

The players have shown their appreciation, thus far, Forster's efforts as their win-and-loss record shows— like any other ball club they have to come up with a allp-shod games that they were fortunate to win.

The Kenmors have a well-balanced club that is well fortified in all departments—when everybody ans-wers "here." But a few good apples missing is always liable to spell the barrel.

The playoffs are in the offing and when they begin it heralds a new season. Records go into the books—and that's that. Playoff teams start from scratch in a new leasure, so to speak. I recall years ago when Brockville wont through the entire season undefeated and was knocked off three straight by a third-place club in the first

Longest Day" Voted I Picture of the World

Darryl F. Zanuck's pr on, "The Longest Day," which slion, "The Longest Day," which was voied the Best Picture of the Year by the National Board of Review, is continuing its successful engagement at the Belle Theater in Belleville.

-The Longest Day," which was more than two years in the making at a cost of \$1, 000,000, has been playing on a road show basis in key cities throughout the world, and has

ighout the world, and ha throughout the world, and has received unprecedented praise, and is now shown in Bellewille for the first time at popular prices. It was dramatized from Cornelius Ryan's best-seller, which so viridly describes the battles and events which took place on D-Day, June 6, 1944. Four governments: England, France, Germany and the United States—many and the United States many and the United States

Canadians gasped when President Kenned asked the U.S. Congress to tax foreign investmen by U.S. citizens. The taxes, in varied amount asked the U.S. Congress to tax foreign investment by U.S. citizens. "The taxes, in varied amounts up to 15 per cent of money loaned or invested, will partially bar Canadians from the cheap-money market offered for so long by the U.S. Predicted results in Canada include higher interest rates, less money for loan, and a general slowdown of the economy. In less ambiguous terms, it means Canada will have to pull up its terms, it means can as will have to plut up its national socks and start to live within the national income. Twenty-one other countries are in the same boat.

The new measures will be hard on Cana-The new measures will be hard on Canadians, but the previous situation was hard on the U.S. With the most productive economy in the world, the U.S. for many years had money to invest. Americans bought U.S.-made goods, and the world bought U.S.-made goods, and were invested about A. The oferigin investment was used to help foreigners buy more U.S.-

Maie juveniles who brush with the law for the first time in Sioux Falls, South Dakota, will get a close shave of the deal, from now on. Judge William H. Heuermann prescribed head shaves for first offence juveniles in Minnehaha County Court, June 30.

County Court, June 30.

Judge Heurmann's prescription was inspired by first offenders who later went around tailing their fireineds that the penalty imposed was a breze. Students of juvenile correction are divided on the value of the new treatment, but juveniles agree it should be effective.

The juveniles judgment in this case, may well be correct. Punishment for the first offender is, after all, a bouchy business. Some idds commit crimes against society, for the sake of offenders.

fender is, after all, a touchy business. Some kids commit crimes against society, for the sake of offending a world they cannot understand, and feel no part of it. Others may cross the law for other reasons, ranging from personal distike for a person or a law to misunderstanding or mistake. Too often, there is no chance for court to assess the reasons for the offence i, in the case of a juvenile in court for the

and, in the case of a juvenile in court for the first time, the reason for the offence is probably more important than the offence itself. The head shave is neutral ground, neither strict nor lenient. The youth with the shawed head proclaims to the world, and to his peers, that he has made a mistake. 'It is up to him to show the world, while he weart that badge, his intentions. The head shawe will bring proceed the content in face the need to he home to the offender the fact his need in the world is not to stay clear of an abstract law, but to earn a place for himself in a free society.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Edito.

One thing professional football television announcer drill into your ears is the university background of players as they are introduced. Understandably so, because the majority of pro gridders are college graduates.

Someone once said, "a little knowledge is a dan gerous thing." With some of the present and the most of the past major league players, a "little knowledge" sometimes resulted in hilarious things and sayinggs.

Take Yogi Berra. Last Sunday after playing in had passed Babe Ruth in the number of games played with the Yankees, 2,063. The guy he was "going to catch" was Lou Gehrig, still tops with 2,164 games.

They tell the story of Yogi while the team was playing an exhibition game in Quincy, Illinois. The club stayed at an apartment hotel that had Murphy beds. Yogi took one look, stakked downstirs to the clerk and said, "Listen, bud, I absolutely ain't gonna sleep

another time in Toots Shor's New York restaurant,

"He's a pretty big guy," said Yogi. "What's

"He's a writer."

"Zatso," said Yogi, showing interest. "What

Once at a dinner held in his honor Yogi was pre-sented with a handsome mantel clock. On his way out of the hotel a drunk ran into him. The lush looked up and starred at the clock.

"Washa matta with you," he bicced, "Why canch: wear a wrist watch like everybody else."

"There," he said, "goes a guy who lost all his money in

"No kiddin'," said Yogi. "What did he do-bet on the Germana."

Babe Herman once complained to sportswriters showly be a sport of the depth of the depth of the battoney," he said. "I'm just as same as all the other players." He pulled a citize out of his pocket and stated putting. "Coult match, he saids putting sway, and the said putting sway and the said putting sway, and it is "Never minod," he said, "it's still lit."

Tom Meany, the Yankee publicist was riding one day with Babe Ruth in the Babe's gleaming flashy Pierce-Arrow automobile. They stopped at a gas station. An-ther motorist looked at Babe's car with interest-

"Has that model got the new hydraulic brakes be asked.

Babe picked his teeth thoughtfully and replied

They tell the story of Umpire George Magekurth at Brooklyn's famous Ebbet's Field when he was assailted and knocked down by an angry fan. Spottweiters interview-ed Magerkurth after the game along with Bill Stewart, another umpire.

"My foot slipped," growled the angry Magerkurth, "if my foot hadn't of slipped I would have ameliorated

"He would, too," piped up Stewart. "Mage is a real strong guy."

Another oldtimer blessed with the little education se days noted that always on home dates in New Ye nan would enter the park with a dozen or so boys.

"Cheft," he remarked, one day. "That guy must have a heluva big family, be a school teacher or one of those homoseniles."

Deceiving the Children A shocking thing happened at Hamilton the

other day. Officials of the Royal Botanical Gardens whiled to show turtle's eggs to a group of forty children in a nature study class. They could not find any such eggs, so they substituted ping pomp balls. One of the more inquisitive child-ren went back for a better look and discovered an "egg" stamped "Made in England."

Blushing officials explained. Their embarrassment, though, appears to have been for the wrong reason—arising from their trick being found out, rather than from any shame that they should ever have considered such deceit in the first place.

Everybody seems to be treating the incident

"WE'RE SORRY

A Message from John Labatt:

"We're sorry if we are causing you any inconvenience; at the same time, we would like to thank you for your enthusiastic response to our new beer, 'Gold Keg.' Unfortunately, your enthusiasm has left us in the awkward position of finding ourselves in limited supply in some areas. During our 135 years of brewing we have never sacrificed quality for quantity; and we will never do so. So we ask for your patience.

And we hope that you continue to ask for 'Gold Keg' beer. We will get it to you in quantity as soon as we can."

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Tonight in that garish, gilttering desert pasts, called Las Vegas, before the biggest bundle of millionaires and beauty ever assembled in one spot, Sonny Liston, the bulldozing world heavyweight champion, and Floyd Patterson, figured by many to be a slaughter-lamb, meet in what is expected to be a brief encounter for the global bamble.

In other parts of the United States and Cauada those who believe in paying a half-dozen dollars for a fistic handout, as is the popular belief, will view the fight from theatres where closed circuit television is available.

There is no home television but fight fans in this can pick up the radio description of the bout over CJ they tune in around ten o'clock or a few minutes pre out over CJBQ II

Liston won the title last September in Chicago by dismaniling Patterson largely by means of three flash-ing left hooks to the head, in 126 seconds.

Patterson is back for another irr—and his tub thumpers say that Floyd by no means will compare with the Patterson that faced the Philidelphia buil-dozer in their first encounter. They say he is superbly conditioned, has a new complex, a new approach and fix. Listen my be in for a surprise.

Over in the Liston camp, they say that Sonny has made a dinner date for nine o'clock. The fight starts in the Nevada city at 7.30 Pacific time, and since Liston does not believe in working after sunset, that means the brawl will be over by 7.43.

If you were in Las Vegas you could buy a ringside seat for \$100. This gives you about three dollars fight values and \$97 return in glamor, beauty and elbow rubbing with one or more of Hollywood's wealthiest and most

For \$50 you sit a few seats back from ringside; for \$50 and \$10 your social status drops and you're back with the boys who believe in getting five cents worth for a nickel, and are anxious to get back to the one-armed

If you wanted to put down some of the mortg money on the fight, the betting establishments out th will give you 4.7, but even at this figure, reports a that business is not too brisk. Rather the boys want wager on how far the fight will go,

The most popular wager is that the fight won't go more than five rounds. That's an even money shot and if the brawl exceeds that you pocket your winnings before the final bell, or the count calls a halt to the

After five the odds vary. If you like long shots to believe in miracles, you can get 30-1 the fight will to a limit decision.

Listen says: "It won't go five rounds. It wouldn't fifteen if I broke both arms. I'll do just like the lans did. When the bell sounds, I'll charge.

Those allegedly in the knew claim that the 4-1 odds which dropped rather suddenly from an early 8-1, were set because of the alarming lack of Patterson aponey. This in turn did not bring in anticipated results so the jumbling establishments, as was mentioned, are concentrating on length-of-light wagering.

A Las Vegas story says that Patterson is in superb dition and if the title were decided on conditioning he'd be the champion right now.

And that handsome young Negro skiting in a ring side seat, his lip parily sippered by a slap from Liston, will be Cassius Cizy. Cizy has been hunning the Lib-co camp heckling the champlos with his rany quips and lips until the ather day Soany cuffed him but good.

Perhaps some day be tween shall meet and it should, draw the largest gate in firstle history. Clay takes of single states are some some some some some states of single states are some some some some states. He has already worked to the single states gradeg affair with his wacky monthings, but in my splates hed better dispose of a few more readblocks before tacking the champion.

And if you'll pardon the column final:—Wouldn't it be any-or would it—if Patterson came out on top tonight, of t hold your breath.

It lie This time, despite the multitude of black, brown and yellow delegate to the U.N. who are always ready to meddle with the white man's traditional privileges, it is doubtful whether the majority of the U.N. representatives will approve of such a more. If they do, however, it is a safe bet that the embargo will never become effective. Not only would it be in restraint of trade, but it will be argued that it would harm creatly those people whom it is designed to assist, depriving the Bantu and the colored people of South Africa of the opportunity of sharing: in that country's normal imports of stars, ammunition and petroleum. arms, ammunition and petroleum.

Yes, indeed, this is where we came in. It was a long show, almost thirty years. In the re-run, the actors will be changed, but one may rest assured that the plot, and the ending,

Who's Who, Where and Why?

Like a pre-war spy story, today's newspapers are filled with stories of trials, meetings at night, young ladies who share their slik bed-sheets with different ideologies, and secret agents who doublecross their own side for money or survival. Someone has now added the final

But to the afficionado of espionage, the situation brings up some real problems. Supposing, for instance, one of the Dolyntains is actually a British or American agent? A phoney into heave of the season of the problems of the real Dolyntains, and to keep the week of the real Dolyntain, and to keep the week of the real Dolyntain, and to keep the week of the real Dolyntain, and to keep the week of the real Dolyntain, and to keep the week of the real desires? The claim that a man would rather believe he is someone else, somewhere believe he is someone else, is a standard technique, according to spy stories. Then again there is the chance that Dolyntain is not Dolnytain, but actually a British agent in training to replace Dolnytain, but who learned to live the part so well that patchols elearned to live the part so well that patchols got the better of him, and he gave himself up to he employers.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Al Kelleher flicked a spot of duti from his shoes, dopted a Casey Stengel slightly hump-back stance, slifted an imaginary "cud" and announced, "Most of the ditimers have passed their physical."

What Al dubs his "Greybeard Baseball Speciacular" is stated for the Fair Grounds, Monday, July 29th, when his Rip Van Winkles of the diamond face the Kenmors sealor club in a graits effort to bring some much-needed coin of the realm to the young club's exchequer.

Producer Kelleher says the game will have the back-and of a musical with a touch of the circus thrown in.

The Hasty Pees Trumpet Band will be around livening the scene with their music while Don Foster and his rie of clowns will dance attendance on diamond and

For protective security purposes, Al says, he has obtained the services of one Bobby Hull, who will not only assist the oldimers on the diamond but will protect them from any possible maybem on the part of the Kenmors.

Thus far Al has suffered only one disappointment. His cret weapon", claimed to be a former well-known hurler, I not be able to put in an appearance. It seems he not get leave of absence from the Home for the Aged. At the risk of poking out one of his own eyes, and owing himself out of the game, Mr. Kelleher will ton several roles in this age-youth diamond drama.

He will act as manager, coach, player, umpire and if Forster runs short of help will essay a Pagliacci role a clown suit.

Mr. Kelleber paused to go through a few finger-wagging calisthenics, then announced "Another special attraction will be the Carson boys. They're the famous notion tops, Mack and Jack.

"Jack will give his famous lecture. There was nothing wrong with the OBA that a good president couldn't cure.' Mack, known to the common herd as "Red", will cavert around third base—using his own name—and just to keep in touch will wear a CNR union

Tip-Top Flip-Flop

In the light of what has just happened in Washington, coming so closely on the heels of events at Ottawa, Prof. G. D. H. Cole never looked better.

Prof. Cole, a London School of Economics Prof. Cole, a London School of Economics type who was adviser to the British Labor Party, wrote a book during the thirties. It was en-titled "The Intelligent Man's Gulde Through World Chaos." Things were in a pretty pickle in those days, and Prof. Cole undertook to sort in those days, and Frof. Cole underlook to zort the whole business oul—tariffs and combines and monopolies and state capitalism, the works, with but one exception. When it came to money Prof. Cole discussed the gold shandard, inflation, deflation, fixed exchange rates, foreign exchange control—and then ended up with a story. Lark in the Heavens

Despite the cynics and the pessimists, the world does progress.

The other day Dr. A. H. Zimmerman, chairman of the Defence Research Board, said that the Canadian satellite Alouette may remain in orbit for 2,000 years. Its predicted lifespan is thus twice that of Hitler's Third Reich. Some might think this

Hitter's Third Reich. Some might think this sky-lark's life expectancy well in excess of that of the race which launched it.

of the race which launched it.

The Alousets will lapse into allence in another year. Still, it points the way to a considerable improvement over the "colors" bottle and flasping window blind which was the best mested Newlie Stute could fream up to provide messages for a dead world.

Things have changed since Antony's day.

Now some of man's most impressive achievements may easily live on for comburles even if the evil which men do destroys the world.

Says Dancing Trains Girls

Toronto Telegram Back in the days when the waltz was introduced, moral-ists branded it as one of the pleasures of Satan, Twas ever thus. From the very beginning of civilization dancing was sus-pected as the training ground for sin.

Nobody is really suggesting that we become purification, in the Victorian age, dancing; was regarded as a means of developing the social graces. Perhaps, we need to remember Christopher Morliey's words in this connection: "Dancing is wonderful training for girls; the first way you learn it's the first way you learn to guess what a man is going to do before he does it."

Is Victim of Gossip

DEAR HOPEFUL — In your stamped envelope I am sending you an outline of neath for five days, which will help you got the plan to work. These make add up to approximately the required 1300 calories. A calorie chart would help; too, and you can find one for about 25 cents at most stationary counters or book stores.

DEAR DORIS — I like this certain guy very much and think is real nice except for what he is doing now. My mum said would never come to my wedding if I ever did marry him, I still love him very much. at I still love him very me

In its authors and the price of the sale (as the talk is). I have the woman and this hurts me very much, but he does not kee I like him. You'll probably jour tell me to forget him and it someone else, but I can't. I think of him constantly.— CO CEENEZD.

DEAR CONCERNED — Mum's right. Forget him. If you don't, the time will come when you'll wish you had. Oh yes you can!

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor f you should eatch Junior throwing stones of a hoe's cat, his window, or his wife—don't stop him ring—just change the target.

You might have, at the most, a Bob Feller in the king, or at least a potential topflight softhall hurler.

The late "Xip" Radley of Kingtton, fifty miles east of here, one day found a long lean brishman stoning hotiles of a fence with uncanny accuracy. He turned out to be one of the Limestone City's better soft-ball twirlers.

The late "Yip" Radie;

Feller learned to throw a stone or a baseball-through a knothole in a door of his father's barn. The old man didn't stop him—he made more knot-holes for the hid. You

So Biaino Healey, now one of the best buzzbailers how here since the visiting days of the Zuks and the crows decided to develop his own style and ability

on he became an addict of the stone-throwing con-ng process, tossing little stones and larger stones at ate objects until he figured the time was right

Il wam't long before softball buffs down around brockville way were burzing about their senational sensage mound stylist. Healey's stone-tossing had sald off and his delivery had the local bats and balts at a mesopeaking basis.

Two years ago he compiled an envishle mound record, leading the Brockville team to the Kingston Softball Association championship, in turn defeating Joycee Real Estate in the first round of the OASA intermediate "A" playdowns.

I am not aware of his complete record, but am told he sed several no-hitters during his sojourn with Brock

What is authentic in that Healey last Saturday, while pitching for the Kingston Combines in the Ontario Department of Highways (the's an associate) soft-hall champlenships held at London, pitched three complete games to win the title

In 21 innings of softball he struck out a sensational 52 batters, giving up only one run and five hits in the three-game marathon. In the titular battle Healey sent 18 of 21 batters down swinging or with their bats resting on their shoulders.

His three victories Saturday gave the young baller a perfect 9-0 record in the Highways tournamen

His most sensational performance, at least here-uits, came Monday night when he hurled a perfec-ne for Joyces against Trudesus, shutting out the tor dealers 9-6.

And in the doing he burst the mythical bubble of a ention of a no-hitter or perfect game while play is going a will mean dispater to the hurler.

Healey, a modest chap almost to the point of shy-ness, refused to be perturbed by the "ribbing" of Tru-deau supporters, and it is suspected, not a few flyboys of the Trenton RCAF squad.

He went methodically about his business, mowing down Trudeau batters with almost monolonous regularity. The catealls and heckling fell on deaf Healey ears. Even a foot-off-the-rubber squawk failed to abake his determination to win.

Healey uses a wrist motion and twist-type windup. Hit trol is not perfect but satisfactory and he is regarded a "not bad hitter." He likes to pitch—and pitch

Healey works for the Department of Highways-and was transferred to the Tweed district this syring. He leghed Jayces on Jame 28 and has a 54 record, there of them shutouts. He has struck out it batters in the struces he has worked, four of them comments in the struck out in rather and the others are the strucked over the hills in any game with the Jorce chibs.

Reporting the Ward Trial

The Ontario Intelligencer, like most other Canadian daily newspapers, has been carrying rather extensive coverage of the Profumo case and its offshoot, the trial of Dr. Stephen Ward vice charges.

We are not particularly proud of this, but on the other hand we see no reason to be

A number of people apparently want to read as many details as possible about this sordid case. By providing them, we are just meeting the opposition.

One of our readers telephoned protesting this extensive coverage. She thought we should refuse to provide a service which many of our

It is no part of the duty of a newspaper to decide what people should, or should not, read. Indeed, the newspaper which undertakes to make such a decision is inevitably shirking its primary duty, which is to print the facts and lets its ders judge for themselves.

ne readers may object to the frank language used in these reports. They are out of touch with the times. The language is in keeping with that commonly used in our society today, in which the serious discussion of any subject is permissible in "polite society."

For those who were reared in different times, For those who were reared in different times, who, in a discussion on censorahip, was asked whether he would permit his daughter to read a particular book. "I believe that if she is old enough to understand it, she is old enough to read it." was his reply.

This attitude is common-place today. Those who do not hold with it are under no obligation to read reports which are offensive to their

taste. Not all of those who do read the voluminous reports on the Profumo and Ward case are doing so for the sale of visatious enjoyment of the lascivious. Carefully read, the reports provide a telling documentary on presend-day morals in one strata of society in one country in the Western world. From these facts, interesting deductions can be drawn.

tions can be drawn.

For instance, while Dr. Ward may be convicted of living off the avails of prostitution, it is quite evident to the unblased reader that the two, 'star' witnesses, Christine Keeler and Mandy Ricc-Davies, are not prustitutes in the oxidiary sense of the word. They had lovers who returned... not one-time extudemers. They were not for sale to all-comers ... 'm Mandy lectified she broke with one lover after a week and a half because she god fed up.' Christina Prize is no evidence that either of these richs. There is no evidence that either of these girls believes she has been guilty of any sin, and al-though Mandy has talked about being "ashamed" though sanny has taken about being "sammed" it is because another man, whom she presumably would prefer for her lover today, has apparently balked because of her past promisculty. The prosecutor referred to another Austrian girl who had intimate relations with Ward as "quite re-

spectable."
What we have here is not a new example
of women's oldest profession, but of the complete
lack of any standard of sexual morals amongst
a certain group in British society. One is entitled to suspect that there are other strate of society in which similarly immoral, or perhaps we should say amoral, attitudes prevail, where, it is held in the words attributed to Ward by Christine Keeler, there is nothing wrong with a woman sleeping with a man she likes ("likes", be it noted, not "loves"). In such circles, is it sur-

it noted, not "forces"). In such circles, is it sur-prising that a woman should accopy "gifts" from her lowers? What lower does not like to give, how many women are so strait-leaced—ro a stone-hearted—as to retuse to accept? If such an attitude towards are is common-place in Britain, should those who make the country's laws attempt to enforce regulations completely out of tame with the public mood, or should laws be altered to conform with facts? The more serious elements of society will find in the Profumo and Ward cases much ma-terial for careful and thoughtful study.

It would be impossible for us to declare war on the capitalist countries—to defeat capitalism in such a way. Then we would destroy a milen worker for each capitalist. Only madmen would brew up something like that.—Nikitis

What would have become of us had it pleased Providence to make the weather unchangeable? Think of the state of destitution of the morning callers.—Sydney Smith.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Older boys weren't too impressed with the style and court antics of the ten-year-old when he first appeared on the St. Andrew's tennis courts some six years ago.

The beginner's crudeness was apparent but what the experienced boys could not see was a championship potential that has mushroomed in the past two or three years.

Hurst, 248 Church St.

The youngster's style, play and accomplishments caught their attention. They will watch him closely in the Ontario-champleanships at Teresaie, August 5 and later in the month at the Cunadian champlonships.

If he maintains his pre-sent championship style of play they will send him to the United States later this

David tips the scales at 116-330 pounds and keeps himself in top physical condition. He specializes in a hard fast type of tennis but is experienced enough to adapt himself to an opponent's style.

"There is no use trying to outdrive him if you know he is better at it than you. In this case I go for accuracy, try to outmaneouvre him, tap it over the net, etc."

convisions," he declared.

Now if that observation means anything, surely it can only mean that the persons secued may chance to be persons of some standing in the community, whose arrest and conviction would be highly embarrassing not only to therm-iselves, but also to other, innocent, persons.

Fray bell us, since when was this a reson, or even an excuse, for refraining from laying chargem?

Five persons appeared before Magistrate Kirkpatrick on the same day. He noted that these were the first such charges laid by the store. From this he drew the inference, prob-ably correct, that the store, open for a year, had just started to clamp down on shoplifters.

Out of these facts, he drew the following astonishing comparison. The store's action, he said, was "rather like a game warden who feeds pheasants until hunting season, then lets the hunters come in and shoot them."

Since when has the prevention of theft been

sidered unsporting?
The sudden vigorous enforcement of so The sudden vigorous enforcement of some law would be unsporting. But these are lawg governing acts which are not in themselves harmful to the public, encept hasofar at they may have possible, or probable, undestrable consequences. For example, police who allow a speed limit to be broken six days of the week, and then suddenly enforce the law when they know the haul of effections will be haveled; might be legitimately likemed to game wardens fattening placeasuit for

the slaughter.
But thert—and aboplifting is there of a particularly despicable kind—is stways harmful for the community. It is always open account on shoplifters. Because a store is lax in its presentions does not entitle the shoplifter be immunity. Nor does the fact that charging him or her will have certain "aunifications."

or her wan have certain "ramifications."

If Magistrate Kirkpatrick feels any future
urge to deliver lectures from the bench, he
would be better employed addressing his remarks
to shoplitters than to the persons who catch them and charge them.

Despite Savage Treatment, American Negro Has Come Long Way From Slavery

Sunday School · Lesson

"because never years that I taught those kids, did any parent ever mention to me the fact that he had a son in my class."

The shrug of a shoulder, a sly wink, a sentence that is never finished, a sulky stitude—there is a death dealing quality in every one of these.

A trip through the Deep South left Harold Morrison, Canadian Press Washington correspondent, with mixed impressions of the Negro's plight. In this story he dis-cusses present day condi-tions in the light of 3th cen-turies of Negro history.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

An outsinding field of more than 100 Ontario professional golfers will contest a brand new tournament—The O'Keefe Professional Champlouship—on August lat and 2nd at St. George's Golf and Country Club, Tworotte.

Open only to professionals or assistants registered with the Ontario Professional Golfers Association, the 36-hole medal play match features \$4,000 in prine money and the sponsor has tossed in a further bonus of \$1,000 for any competitor scoring an elusive hole-larane.

The eight low scorers at the professional champions will qualify as a team for a crack at Quebec's top in the Ontario vs Quebec Interprovincial match scheel for August 10 at Montreal's Wentworth Golf Club.

With Quebec's pro golfers lighting it out in their own \$4,000 tournament for a place on the interprovincial team, the \$3,400 prize money in Montreal during the August 10 event brings to \$13,400 the total bonana available to Ontario and Quebec pros over the three matches.

Veteran Quebe pre, Jules liute, now in his 19th years as a professional and top winner: In the pre golf control in Quebe charles for the present of the pres

Quick to fan the flames, O.P.G.A. President Jack Megallin of Bayview and non-playing captain of the Ono condingent commented: "With the classy field playing
St. Georgée On 'August 1st and 2nd, we feel our
m representing Ontario will be the strongest ever."

"Ontario has always had the best golfers in Can-ada," he confidently added, "and we're looking forward to renewing our friendly rivalry with Quebec on Aug. 18. Frankly, we'd like nobling better than to win on Quebec's home grounds!"

Adding strength to McLaughlin's remarks, the has Outsirie entry in the new Pro Champlonali index such stalwarts as Al Balding, Alvie Thom lower Emmans, Moro Norman, Gordon Brydson, Jorthwick, John Henrick and Jack Davidson.

The two-day professional championship on Thurpday and Priday, August 1st and 2nd at St. George's should attract a lung againey of golf fans who can watch the cream of Ontario pros fight it out for a place on the Ontario team, and to make things easy for everyone, O'Keefe has waired the normal admission and is providing free public park-

A long-standing tradition was broken at
Coltshaut, England, recently, when the first
German aftr Porce Squadron to visit England,
into the Second World War landed, without
meeting any Harricans or Spittler Spitter. The
tradition began about 1989, and carried on regularly until 1965, that Hurricanse and Spittlers
were always sent up to greet visiting Germans.
"The airheas at Coltichail stull has one Spittite and one Hurricane, souvenirs of the war,

Has I been in a serious work and patched up to market when the service are serviced as the second of the market when the service are second of owner unlead it market because she wanted a new model?

DEAR ANNI LANDERS — You seem to know a lot about physhology. Will you please explain why some people who are physhology. Will you please explain why some people who are they are settingly hard up?

I can understand why people who are not very well-helded and present the property of the

DEAR CAN'T —The poor-mouthers have a silly notion about how people of means are expected to behave, and they don't feel equal to it. | So they try to sakes the label of "well to do" to avoid living up to their manufactured image. Bragging in reverse is phony and bootless. Perhaps they'll see this and cut it out.

connutential to FRAZZLED NERVES — Why don't you stop trying to please everybody and please yourself for a change. Then at least one person will be satisfied.

Confidential to OFFENDER OR OFFENDED — Sorry, bu you're mistaken at the top of your lungs. The person who doe the telephoning is supposed to identify himself. The woman wan not rude when she saked "Who is this?" You were rude for no telling her before she saked.

Are you going steady? Making marriage plans? If so, send for Ann Landers' booklet, "Sefore You Marry — is It Love Or Sext", enclosing with your request 25 cents in coin and a long, self-addressed envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped.

"Now, let's see the label."

WITH HER HUSBAND, her father and her brother employed in Canadian industry, she knows that she has an important role to play when she shops. Because Canada produces almost everything, she never buys without looking at the label.

When the price, design and quality are right, the smart housewife buys the Canadian product, and keeps Canadians working. People have become increasingly aware of the importance of the label. Surveys show that in the last few months \$115,000,000 has been diverted from imported to domestic products.

To keep our economy strong, to create jobs for the young people coming on to the labour market, we all must continue to be "label conscious." If each of us could divert just \$2.00 a week from imported to domestic products, the result could total \$600,000,000 in Canada in one year! And that could help create 60,000 new jobs!

Look at the label before you buy; if the design and quality are right, buy products made in Canada. It's in your own best interests. You help yourself, your neigh-bour and the whole province, by giving such products the opportunity to serve and satisfy you.

The game gets under way at eight o'clock and aid be productive of a lot of fun, entertainment with ne good baseball toused in.

The Hastings and Prince Edward Regiment Band will there with their colorful uniforms, fine music and it is a likely their precision drill. The Kenmors appre-te their efforts.

Don Foster and a coterie of clowns will be on hand to add to the general enjoyment. 415 Wing RCAF will make the big draw for \$1,000 and the O'Keefe Award will be presented to the Kennor player adjudged the most valuable to the cith over the schedule.

The player has been or will be selected by the of the Kenmors club, Coach Sid Forster and o other basemall men.

Al Kelleher deserves all the accolades that can be tossed his way. For the past few weeks he has worked hard at rounding up a squad of oldtimers and he has come up with a roster of nearly thirty.

Tribute goes to the "old fellows" too, for their will-gness to dig the old uniforms out of the mothballs and ad a hand in trying to raise funds for the city's senior

Al went away back to the 1948 and 1954 bare teems to get his club. Not a few of them reside out town and none of those contacted turned down Kelleh request to help out with the diamond reunion.

From Perth comes Johnny Mowati, the "ageless ice," who will round out the Oldtimers' mound staff Sobby Bunton and Art (Fish and Chipe) Wright.

Jack Elliott, senior, will climb back into his old seconal dude and once more crouch behind the plate. Delething besides Jack will be Tany Petilit, now of Kingston and Eune Soules of Oshuru.

And here's an infield that should bring back rash of memories. At first will be Doug Hull; secon base, Cande Carr; on the hot corner, Huck Beer and at shortstop Ketth MacDonald.

In the outfield probably hoping the legs will stay with them will be, starting, Bobby Strachan, Pat Gilmour and Davy Jones.

Also playing at some stage of the game will be th oldtimers as Vern. Goyer, Speedy St. Louis, Sammy likolland, Mack "Red" Carson, Don Semark and Bobby Il, the "muscleman" of the Chicago Black Hawks.

Two former hatboys of the 1946 era will be in uniform in their old positions. These are Gordon St. Louis and Don Delin. Then there will be Peter Jones, "Mosses" Bush and big Dava Lockyer ready to fill in lat any spot where needed.

Timmy Williams, a veteran umpire of the good old days, will be in charge of the mask-and-padmen. Don Thomas and Don Lee will be around to help and Umpire-in-Chief Tom Hulms says he will have two or three more officials around in case they are needed.

And Mr. Kellcher passes along a big "think you" to the officials of the District Softball League for their cooperation in not scheduling a playoff game in order to help the Oldtimery game.

Should be a lot of fun watching the "old boys" once more cavort out there on the diamond. They're all coming for "free" and it is hoped the ians will turn out in goodly numbers to enjoy themselves and help a good

Has to Sell Test Ban

President Kennedy appeared on a coast-to-coast radio-TV hockup Friday night, to sell the American public on the idea of a nuclear test ban. Mr. Kennedy and his supporters fear, ap-parently, the pact signed in Moscow last week may not be ratified by the U.S. Senata.

Britain, one assumes, will ratify the pact with little discussion. Britons have seen enough, war already, and Britain is so small the country could be compistely wheel out by nuclear war.

Rusai, saced by the military might of the U.S., will ratify the pact without comment. In such a monolithic government, it is safe to as-sume the pact would not have been signed before the governing body had approved the whole of it.

But the U.S. may not co-operate. The power of the Pentagon, one assumes, will be thrown against any test ban, if only because such a pact would tend to diminish the power of the U.S. military hierarchy. With the greatest military force the world has ever seen, except Russia, with force the world has ever seen, except runsia, what little experience of war in its own territory, and with the profits of some of the largest industrial empires in the world dependent on the threat of war, the U.S. has less need, and less desire, for a test ban than any other country.

President Kennedy and his supporters will fight tooth and nail in the Senate for the ratification of the test ban. But against the opposi-tion likely to be offered by the military, and by industrial interests, even the power of the president may not be enough.

Uncertain Trumpet

"Yard of beer" glasses are illegal, in Ontario, according to the LC.B.O. The glasses, which consist of a spherical base and a long slender trumpet leading to the rim, hold three bottles of beer each, and the "half yard" glasses hold two bottles. That makes them multiple servings,

two bottles. That makes them multiple servings, according to the Board, and several hotels now using them must put them sway.
One hotel in Hamilton temporarily ignored the-ruiling, and a hotel in Niagara Palls has bridged a protest. The hotels argue that there is no law regulating the size of glass in which they can serve beer from bottles to their guests. As long as only one glass is used for the serving, the hotels argue, the law has no say in how many bottles are required to fill it. There is, however, a legal limit on the size of glass used for serving draft beer: According to the spirit of the law, certainly the glasses should be considered illegal.

The law is concerned with the amount of beer served at a time, not with the means of delivery.

Some of Ontario's liquor laws, one suggests, have no spirit worth considering. Enacted to lease temperance advocates, they remain on the cooks only because the Provincial Legislature has not managed to raise enough courage to change them. Such laws are antiquated and where there is the elightest legal basis for ignoring them, it can be expected that efforts will be made to evade the letter of the law.

According to Law

When the U.S. and Britain denied support in the U.S. to a resolution demanding that Portugal grant independence to her African territories, the two countries acted in accord with International Law, as recognized by the U.N. The resolu-tion, sponsored by Ghana, Morocco and The Philippines, would have called on Portugal to free the colonies as soon as possible, and would have de-manded an embargo on the sale of arms to Portu-

According to law, such a resolution would have been ligeal. The U.N. cannot interfere with any country's internal affairs, without a request from the government involved, and Portugal's African territories are legally part of Portugal's Each territory has the status of a state of Portu-gal, and each has normal representation, as a

state, in Portugal's government.

The U.S. and Britain had to refuse support for the resolution. The 32 African nations who originated the move will be more concerned with the refusal than with the reasons behind it, and they are not likely to forget the event.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Perhaps not in a decade or so have so many major at-tractions been offered the entertainment-minded public over the Civic Holiday weekend.

'As is well known now the Wellington four-day Cen-tennial celebrations probably hold top spot but there are other attractions for those who seek relaxation in

Remindful of the thrill-pseked days when Canada's Queen of the Unlimited "Miss Superiest III" rooster-tailed her way in defence of the Harmsworth Trophy is the International Outboard Regatia being staged on the famous Long Reach water raceway on Monday,

The starting gun will sound at 1.00 p.m. and in the urse of four hours with a race every ten minutes, eight asses of outboards will be entered and the winners exented with prizes.

The Prince Edward Yacht Club in co-operation with Picton Outboard Club is sponsoring the regata. They there will be ample room for free parking and an exent view of the course. Children will be admitted free.

Then there is a special attraction for the fish-and-game minded on Monday when those grand fellows of the Madoc District Hunters' and Angiers' Club presents their popular, annual Sportsmen's Field Day.

The club's 75-acre grounds are located three miles of Madoc just off Highway No. 7 to the north. This, adoc boys say will be a real family affair. The first ann 3d day held last year attracted over 1,000 persons.

There will be a balicating contest with ten prines arailable; trap, rifle, abotgus and archery contests; trained deg demonstrations, ingo's-wire, brose aboe pitch-ing and a dog-trailing post. For the hiddles there will be a merrap-exound, pary rifles, races and other co-terialment. The adminism is only twenty-five cents with the hiddles going in free.

Here in the city, the Ontario championships of the rovincial Laws Bowling Associations unher in a week ad of more or less speciacular competition for the eans of Ontario laws keglers on Saturday, August 3rd.

Champions in rinks, trebles, doubles, colts and singles be declared by Saturday night. The winners will go to milton the latter part of August where the Dominion mpionships are being held.

It is the first time since 1948 that the Provincial competitions have been held here and officials of the Belleville Lawn Bowling Club are going all-out, games and hospitality-wise to make it a success.

On Monday, August 5th the famous Corbin Gold, Cup competition for rinks will be held here. This tournament is one of the outstanding features of Ontario lawn bowl-ing and over a long period of years, the city clob has built an enviable reputation for excellent greens, games facilities and their well-known hospitality.

And no doubt not a few will indulge in the popular holiday pastime of "blackmaking" at unumer camp, cotage and resort. District watering places will be crowded as will the highways. Lake, river and stream will be mecas for the Isaac Waltons. It should be a good holiday, unfortunately, as is uraid, one that will be darkened by the castully list.

to decide to what municipal projects this money shall be spent.

If the fund is operated for several years, it is almost inevitable that a difference in results will become noticeable. One or two provinces will have made better use of the money than the others. One or two provinces, in all prob-ability, will have reaped lesser benefits than most. No matter how much the provincial remost. No matter how much the provincial re-times may plead special circumstances—and despite the fact that such special circumstances may actually exist—there are certain to be comparisons. For the first time, there will exist a visible yardstick by which to judge different governments, because they will have been provided with opportunities which, as far as possible, have been equal.

Some of the provincial leaders may discover that they were rejoicing too soon.

ELLINGTON — Little is shown in the sports re-

emi-professional baseball league operated in the about this time with Jeams from Picton, the village, id, Demorestville, Point Anne and Frankford among Villago herees were Billy Wilder) who later be-n millienairs; Jee Collier, a pitcher; Johnny and ny" McMahen, Burl Fanning and others. Bison-had its famous Euy Stewart, Harry Hamilton, How-Soworman, "Toby" Arkett among fits diamond stars.

Rivairy was keen and the sport came to the point where sessional "imports" were brought in from Toronto, Ro-ter, Watertown and other large centres.

Fig. was come and once targe contract.

Little H any is known of organized heckey being
yed here until the late 1920's when the village enal a team in the "County League." It included such
yers as Ralph MicDenald, "Dotth" Alauworth, Jakey
su, Goorge Noble, Gerald Gibson, Denny Greenfield,
s writer, among others.

After the efees of World War One a second team was expanized under the actis of the Canadian Legion-is included among others use of the village's hrightest professional backey and haseball prospects in Rob Green; who was Rilled in a ceir necident near Windoor West-wisk and the contract of the contract of the contract of the votating from a baseball pre tryont in Tototia.

With the construction of the village arena in the early 1930's interest in hockey particularly among the smaller fry, marked an upsurgance.

It was fortunate in having outstanding men as man-ers and coaches. The population backed them solidly, rally and financially.

Wess Rhe "Dritch" Alneworth, Jack Oglivy, Allan Pottingill, Donald Beitley and others gave their best with the result in 1842 a village hanten squad under Answerth brought home the first Ontario Miner Hoc-key Association title.

That year Mr. Ainsworth was honored by the OMH its annual Golden Award winner, the first to come it part of Ontario.

In the 1942-43 hockey senson the village was represented by three minor squads. All three went to the finals but two were eliminated. The third, the juvenite team, won the first village all-Ontarie championship in

Baseball-wise the village has done itself proud. Again its minor squads have brought honors to it and the county. In 1954 Johnny Mowat, a star pitcher in his own right, coached a midget squad to a first provincial champisaship. Howat was aided and abetied by

Two years later Jack McNelll and Bill Sainsbury as sager, coached a smart village squad to the Ontario pec-

In January of this year the Wellington Ama-r Athletic Union was dissolved and a village Recfe-m Commission formed by a village order-in-council.

Under the commission, expansion of the village sports program is under why. It will carry on with baseball and hockey with other minor sports. Proposals in the planning stage provide for tennis courts and an artificial ice plant in the arena.

Heading the commission is chairman Vernon Van-water. With him are vice-chairman Reg Bishop and mhers Bob Boyce, Jack Oglivy, Rosva A. C. Flatt, it Evans, Jack McNeill and Jim Burt.

Every year the village becomes the meets for fish-ngy angiers. H borders the prolific vaters of West to where pickers, pine, bess and mustics abound.
